## **Preface by Stephanie Relfe**

This is book Two of the Mars Records. *If you have not yet read Book One, please stop reading now and go and download Book One and read it, because Book Two will make little sense unless you have read Book One first.*

The Mars Records, Book One was published on the internet on 2<sup>nd</sup> April 2000. This was between Sessions 59 and 60. Book Two was published on April 20 2002.

Since publishing Book One we have been amazed and touched by the many people who have communicated with us to show their support. Some support us by believing that what we have said is true, others have supported us by communicating some kind of experience to do with people being on Mars.

For example, one lady told me how she once astral travelled to Mars and came across an area of EXTREME sadness. It was all the old scientists who had left earth, and were no longer allowed to return home. Another man told me how he had a number of clearing clients who came up in session with telepathic links to people on Mars.

Yet others have supported us by coming back to us with stories of personal experience that in one way or another contribute to the veracity of what we said happened to Michael.

A chapter describing The Mars Records and a chapter describing the kinesiology techniques for the Wernicke's correction (with pictures) were published in a brilliant new book in March 2002. The book is titled "The Universal Seduction". It is a world first in that it is about alternative science / paranormal phenomena / government black projects etc. and the author Angelica Tapestra is not one person, but a large group of authors, researchers, experiencers and scientists. This book is HIGHLY recommended. See [www.theuniversalseduction.com](http://www.theuniversalseduction.com)

Possibly the most important event that happened during Book Two was that Michael found a way to stop being abducted. This is described in session 100. The abductions were happening regularly once a month before that. On the 15<sup>th</sup> October he did an action which stopped him from being abducted for the next six months. He was later abducted again, but continued to refine and improve his methods and as of today he is winning this battle. His methods are described in the appendices.

Michael's methods to stop abductions use prayer and precise wording of what you are praying for. It makes sense that this can stop their technology. If you read the Montauk books by Peter Moon you will learn that the original technology used to change space/time was a chair which HAD to have a psychic in it. Later they learned to do without the psychic – but the space/time technology REQUIRED the initial input from a psychic. Therefore, the human element cannot be underestimated. If you add faith, God and understanding of how their technology works, then you have a force to be reckoned with.

***If you do not have time to read this book immediately, please have a look at Session 89: Testosterone Levels – Medical Results. This chapter is truly amazing.***

There have been certain repercussions to us for publishing the Mars Records, which will be described in this book. However, I will mention here one odd thing that happened to us. A month after publishing the Mars Records we moved house within Australia. All of our things then arrived in one large container from America. Everything was checked off and all boxes were present and accounted for. I distinctly remember storing in one spare room where we had a number of boxes, the two boxes that contained the contents of Michael's filing cabinets. They were labelled "Michaels files". Michael also remembers seeing them. And besides, the paperwork that came with the moving company showed that we had received all our boxes, and everything had been in a container.

It wasn't until about four or five weeks later, when we had unpacked everything, that I realised that Michael's two boxes were nowhere to be seen. You couldn't miss them, they were standard boxes from Penske, 16" x 14" x 13" high. They have never appeared – and there is nowhere they can be. We can only surmise that at some time after moving we had visitors. I suppose they were interested in them because the boxes were marked "Michaels files". In fact, there was nothing of value or interest in these boxes, they were mostly catalogues from camping companies etc. Maybe they were removed as a warning to us. As far as we could determine, nothing else was removed. It was most strange.

I believe we had another visit later from someone when we were living in Norfolk Virginia. This book would have been published several months earlier if it was not for this visit. I had finished the first draft of the book, printed it out and had just finished proof reading it in red pen. The last I remember, that copy was sitting on our coffee table. As you can see, this book is about ¾" thick. It's not easy to misplace. We were living in a tidy two-bedroom apartment. That copy never showed up, even when we packed up and moved to Arizona.

Since the beginning of this project I have learned much about mind control which, like most people, I was previously unaware. The saddest and perhaps most crucial piece of information that I have learned came from the books of Fritz Springmeier. He claims that many of the people who are involved with mind control and / or most of the people who are in political power are themselves the victims of mind control, which has often been done to them by members of their own family!!!! For example, the father will deliberately rape his children to create a multiple personality which can be programmed to do whatever the father wants.

This explains one problem that many people have with conspiracies: These people argue that no one can keep a secret, and that therefore if there was a conspiracy of a relatively few ruling families working to take control of our lives and minds, we would all know about it. This works for conscious people with free-will. However, if what Springmeier says is true, then the system of mind control that is in existence offers one explanation as to how these people manage to keep their secrets.

While we do not believe that this is true in all cases, since sexual abuse was never part of Michael's life, we feel that this is an important piece of the puzzle.

It seems to me that breaking this system of mind control is one of the keys for us all getting our freedom back, and creating heaven on earth.

We suggest that possibly the best way to break this system is through prayer, if you feel guided to do so. The effectiveness of your prayers can be increased if you know exactly what it is you are praying for. You could pray for an end to mind control, or you could pick on one particular person to pray for. After all, if these people are all subject to mind-control, they are unlikely to be praying for themselves.

If you want an example of how the power of prayer can turn someone from the dark side back to goodness, check out the history of Bill Schnoebelen ([www.withoneaccord.org](http://www.withoneaccord.org)) who was a satanic priest and high level mason, among other things, and going steadily downhill when his monthly tithe check to the Church of Satan came back to him from the bank with a note on the back written in a delicate, feminine saying "I'll be praying for you in Jesus' name". Within a week, his world turned upside down. He was so impressed that simple prayers could undo years of occult work that he eventually gave up the path he was on and sought out a better one which eventually ended in him becoming a Christian. He now gives talks which expose many of the dark secrets that have been kept hidden from us.

For example, he explains how many Masonic court judges are sworn to defend other masons who are at a certain level, even in cases of murder or treason. See his video "The Light Behind Masonry".

A highly important piece of the puzzle was answered for me when I read a brilliant new book "Secret, Don't Tell: The Encyclopaedia of Hypnotism" by Carla Emery. The author maintains that for 10% of the population, the ONLY method needed for total mind control is hypnotism. No physical abuse is necessary.

Like most people, I thought that hypnotism was not all that important, because people cannot be made to do things that they would not do if they were conscious. This is far from the truth. Carla Emery gives many examples, including some from court proceedings, which show that hypnotism CAN make people do incredibly immoral and unethical things, including prostituting themselves, robbing banks, giving away all their money to the hypnotist, and even murder!!!

This is done by secretly putting a person into a trance, and then making them forget that they were ever hypnotized. After that, it is easier for the hypnotist to put them into a trance a second time, and each time they are put under they become more and more susceptible to the commands from the hypnotist.

Perhaps the most amazing fact I learned from this book is that the more intelligent you are, the HIGHER is the likelihood that you can be hypnotized!!!!

The Mars Records Book Two was published in mid April 2002. Previous to that it was generally Michael who was attacked. However, during the three or so months before this book was published, I too started to receive unwanted attention. I believe that one or more people decided to add me to the list of people who have died from heart attack caused by advanced technology being directed at them. However, these attacks have been averted so far through the help of a crystal device invented by Don Croft, and by the help of God and prayers from Michael.

I first 'met' Don Croft on the internet around the beginning of 2001. My husband, Michael, and I had put a note on the website saying that [Al Bielek](#) was in need of help as he was being thrown out of his home. Because of that note Don sent a note to Al through us advising of a friend who had some help to offer.

As I got to know Don through his emails, I began to learn of his new orgone-generating cloudbuster which was an improvement on Reich's cloudbuster and able to disperse chemtrails. Through a group effort, around September 2001 an article was written telling how to build a cloudbuster and smaller orgone generators called HHGs. The article was placed on my site [www.metatech.org](http://www.metatech.org). After that I started an egroup for people who had cloudbusters to network with each other. See <http://groups.yahoo.com/group/cloudbusters>

Because of our involvement in his work, Don very kindly sent us for protection a crystal orgone generating device that is now called a “Succor<sup>2</sup> Punch” We were very impressed when it arrived. We felt that it must really do something.

At that time we believed that Michael had been abducted from our car in a public carpark. After that we would scan the sky for ships, and we would both sense that they were in the same area. We would then use the Croft crystal device to send the ships energy and we both sensed that the ships left very quickly.

However, I didn't fully appreciate the power of this device until March 2002. We had tried leaving it turned on while we were asleep, and did not feel refreshed as we should have in the morning. We also didn't feel that this was the result of a healing crisis. Figuring that nature's energies are the best for our bodies, we began to forget about the crystal device. However, I must note that others have reported that the Croft crystal device ('Succor Punch') has given them energy and they have found it to be very beneficial, even when they slept.

In any case, that was until I came under what we believe was radionic attack.

I had been attacked by radionics once before, about two years ago in Australia, around June 2000, a couple of months after releasing The Mars Records Book One. I suddenly felt a pain in my left breast. When I felt there, there was a lump the size of duck egg. Michael laid hands on it and prayed in Jesus name to heal it. He went through a great range of possible causes. When he said “radionics” I started to cough deeply, belch loudly, yawn and have water coming out my eyes and nose. When he was done, the lump was half the size. By next morning it was gone. Using muscle testing I verified that the lump wasn't cancerous, but it was meant to turn cancerous.

Around January 2002 I started working on a new project. Also, it was around this time that Book Two was stolen from our apartment – I wish I had written the date down now. I started to feel radionic attacks again. I suddenly felt a hot, burning pain in my left chest, just below the left breast towards the midline. Again Michael prayed to stop what was causing it. Again when he got to the word “radionics” I reacted with the same deep coughing, belching, yawning, tearing eyes and watery nose. Once he was finished, the pain was gone. However, this time the pain kept returning almost daily. Muscle testing confirmed that the attacks were by radionics.

---

<sup>2</sup> Succor:: A person or thing that brings relief, helps in times of distress

After about two weeks of this I was getting pretty fed up and even a touch concerned. One day when the pain returned I remembered Don's Succor Punch. We turned it on. Within a few minutes the pain was gone. Wonderful!

This happened many times over the following weeks. In the week previous to when I wrote this article we drove across America. I was in a different vehicle to Michael. On three occasions I felt the sharp, hot burning pain appear. I turned on the Succor Punch on and the pain went away, almost instantly.

At one time I even used the energy of the Succor Punch to send the energy back to the sender, plus the people above him, to be used to open their hearts so that they can feel the pain that they have caused directly and indirectly to people and animals and the earth.

One time was particularly remarkable. I was driving along with the crystal device on the seat beside me. The pain suddenly appeared. I thought "Oh no, the crystal device isn't working any more!" but when I checked it I found that the alligator clips had become separated from the crystal as a result of me rummaging around my belongings on the seat. As soon as I reconnected it, the pain disappeared. This happened on one other occasion.

I felt that the bad guys were increasing the strength of whatever they were sending. One day just as we pulled out of a gas station, I suddenly felt an ENORMOUS amount of heat and pain in the center of my sternum. The pain felt like a ring of fire about the shape and size of the outside of a bread plate. I knew that this time it was pretty serious. I turned on the Succor Punch and within a minute or two, the pain had receded.

I once read an article in a UFO magazine that listed the number of people involved in UFO research who had died from murder, suicide and from cancer and heart attack. The list was incredibly long!!! We have always believed that many of these people were killed radionically. Of recent deaths, we believe that Dean Stonier, who died by heart attack shortly after hosting a Global Sciences Congress in Denver, was killed by radionics.

We also believe that Stanley Kubrick, who died shortly after the release of his movie "Eyes wide shut" was also killed by radionics. We believe that his movie "2001 a space odyssey" indicated that he was in alignment with the secret powers that be. However, people change. He didn't produce a movie for twenty years before he produced "Eyes wide shut". This movie was kept in super secrecy until it came out. Even reviewers did not see it until the day it was released. Most people did not know what to make of it. They didn't recognize it for what we believe it was, namely a documentary,

of the kind of religious rituals that the powers that be are involved in. In the movie Tom Cruise is told towards the end something like “If you knew who those people were, you wouldn’t sleep at night”. We believe that Kubrick towards the end turned towards the good side, and wanted to get information out to the people. We believe that Kubrick was killed radionically by people who he was once aligned with.

Some time after the initial attacks I got attacked again. Michael used muscle testing, as we had many times previously, to confirm that the pain was in fact caused by radionic attack. He then used prayer instead of the crystal device to get rid of the attack. I did the usual deep coughing, belching etc. while Michael was doing this. When Michael got to praying in Jesus’ name against “death signal attack” I reacted very violently. We then turned on the Succor Punch to prevent the attack from coming back again. I had to sleep for several hours after that, as I had virtually no energy left.

Since that time until today (April 17 2002) the attacks have returned to me almost daily, and sometimes twice a day or night. Unfortunately, we believe they started to change their technology as the Succor Punch was not always effective after the first few weeks. We believe the Succor Punch works more on the physical and that there are spiritual aspects to these attacks that only praying will work against.

The prayers Michael used to protect us are in the appendices at the back of this book. In addition, I strongly urge anyone who believes they may be under radionic or microwave or other attack to:

- 1) Obtain a Croft crystal device – the ‘Succor Punch’. Email enquiries to Michelle at [MRidgley@aol.com](mailto:MRidgley@aol.com) or Don Croft at [zapper16@earthlink.net](mailto:zapper16@earthlink.net) or [doncroft@hotmail.com](mailto:doncroft@hotmail.com)
- 2) Pray in Jesus name to cancel “DEATH SIGNAL ATTACK”. Every time I feel the burning in my chest and Michael prays against this I eventually cough, belch loudly, yawn and get water eyes and nose. The few friends who have observed this have been amazed – I do NOT normally make these noises!!!
- 3) Be as SPECIFIC as possible in describing the kind of attack that is being sent your way when you pray to end it.
- 4) Pray for the attackers and their bosses, and the head boss, that their hearts and minds be opened to goodness. Perhaps you could even pray to give them a near death experience – to open their hearts and minds to the full ramifications of what they are doing when they do harm to others.

## Summary by Michael Relfe

### *I survived a military abduction and all I got was this stupid T-shirt*

That's how I feel sometimes. I don't like being a lab rat. I didn't like it in 2000 and I don't like it in 2002. I don't care that it includes the best "health insurance" on the planet. I don't like the secrecy. I don't like being watched and monitored and I really don't like being ignored and treated like a stud bull.

It has been two years since **The Mars Records** was released. In that time we have had many new experiences. The most positive one being that God gave me a way of preventing being taken. An explanation of the procedure is described in the appendix.

The results of publishing **The Mars Records** were to be expected. Silence from most of the so-called "UFO Community" (for notable exceptions to this, please see the interviews in the appendices) and swift retribution from the enemy. There are many hundreds of books published concerning military/alien abduction however never had there been a book documenting the use of biofeedback clearing, Kinesiology and Christian deliverance in freeing someone from the effects of long term mind control resulting from a history of abduction. Several different groups in the shadow government did not appreciate this. Radionic attack, various types of psychic and remote viewing attack as well as witchcraft attack are used against us sometimes on a daily basis. Please see the appendices to discover how to deal with such problems.

**The Mars Records** was published as a help for people suffering the negative effects of mind control. It was meant to encourage victims to seek out effective treatment without the use of invasive hypnosis and to recruit healers and practitioners in helping those abductees and contactees that want help.

Several people have asked concerning how I feel about how I have been treated and what it is like to live such a life. In addition, we have had two offers to publish **The Mars Records** commercially as well as several offers to speak on radio and at conferences. I will answer the last question first. After some discussion with two publishing companies we felt that we did not want to "sell" the book to anyone. I made it clear at the beginning of the negotiation that a free PDF copy of **The Mars Records** must always be available on the internet for anyone to download. That didn't go over too well with the publishers. End of negotiation. Stephanie and I also decided that we didn't want to risk our lives entertaining people. Many people use

conspiracy and fringe science research as their entertainment and we didn't want to contribute to that end.

As for my personal feelings I don't really have any, at least bad ones that is. I want to reiterate that at no time during the documenting of these books have I ever said anything negative or treasonous against my country. Regardless of the way I have been treated by certain groups, I love my country and my planet and will stand with them against any enemy. However I believe that my planet has been invaded and that the enemy has compromised some key command structures. The abductions are real. The scars on my groin and the operations that caused them are real. The modifications made to my hormone levels are not my imagination. The radionic, psychic and witchcraft attacks are real. And so I conclude that I am in a battle and that I must myself resist these attacks and help others to do the same. I can only accomplish this with the help of God almighty and His son The Lord Jesus Christ.

I recognize that God Himself made me the way I am and put me in this situation for HIS benefit not mine. I thank Him daily that for every kind of attack that the enemy throws against Stephanie or myself, no matter how strong or complex. God ALWAYS shows us the answer to it and how to take it apart. Only He can do this EVERY time without fail.

Thank You for taking the time to download this book **The Mars Records: Book 2**. We believe that you will find it interesting and hope you will put the warfare prayers to use. We also hope you will be encouraged to learn Kinesiology and Biofeedback clearing and become a practitioner to help those that need it in your area.

And for those in the military remember, **Never Volunteer For Anything**

Sincerely,

P.S. A note for you intelligence spooks that are reading this. We know that some of your attacks are illegal, unsanctioned and unknown to your superiors. You are only supposed to do what you are told. We hope these dates and documentation will enable your superiors to trace you and see what you are up to. They only have to monitor the session dates and watch you without interfering. I sincerely hope that it gets your asses in trouble.

## **Definitions of Healing Therapies Used**

- **Deliverance** : The process of the removing or the “casting out” of demonic entities using the power and authority of the Lord Jesus Christ, as Jesus did in the bible. For more information please see the information, books and audio tapes available at [www.hbcdelivers.org](http://www.hbcdelivers.org)
- **Clearing** : A technology for finding truth<sup>1</sup> by using a biofeedback meter. It works with a person’s mind and spirit while he is conscious. Clearing removes negative emotional charge and subconscious sabotage. It increases a person’s abilities and awareness.
- **Kinesiology**: A technology which improves a person’s health and wellbeing by working on the body’s electrical systems. It is different from all other technologies in its use of muscle testing. Muscle testing enables a kinesiologist to communicate directly with the body’s brain, which is like a super-powerful computer.

We believe from personal experience and from researching the work of others (such as Bill Schnoebelen and Fritz Springmeier) that the mind control technologies used in these government programs are **demonically** inspired and contain physical, metaphysical and spiritual components. Each component must be dealt with individually, using the three technologies of deliverance, clearing and kinesiology.

**Without the help of GOD, it is highly doubtful that any person can be freed of these mind control effects, so constant prayer is a must.**

If the mind control victim cannot bring themselves to call on God or the Lord Jesus Christ for help, ultimately they will find limited freedom using the other technologies. They will get a great deal of help from clearing and kinesiology but will only be able to proceed so far. Only deliverance will remove demonic entities. Technology and procedures will not. Deliverance clears the way for everything else. More detailed information concerning the deliverance ministry is provided in Appendix VI.

When reading these records, please take special note of the format of the sessions as well as the explanations of the technologies. With “The Mars Records” ([www.themarsrecords.com](http://www.themarsrecords.com)) these records are unique in the field of alternative science (UFO, Paranormal Research, New World Order Expose, Government Coverup, etc) in that they contain the actual readings from the clearing biofeedback meter.

This biofeedback meter “truth detector” cannot be fooled. The contents of this book are not opinions or speculation. In addition hypnosis was never used in any form.

***These sessions are compelling evidence that the effects of mind control can be reversed, and that those that use mind control can be defeated.***

## **Clearing**

Clearing is a method of discovering truth.<sup>1</sup> It is vastly more efficient than other technologies for finding hidden truth because of its use of the following:

### **A) The Clearing Biofeedback Meter**

The Clearing Biofeedback Meter is a simple Wheatstone Bridge<sup>3</sup> which measures the resistance of the body as influenced by the electric field around it. It is fairly simple electronically. However, it is what is done with it in the hands of an experienced Clearing Practitioner that gives it its power.

To some people the Clearing Biofeedback Meter looks like a lie-detector. But it is in fact a 'truth detector'. It is many, many times more efficient and reliable than a lie-detector. As you will learn, the needle on a biofeedback meter gives a wealth of information. It does not react to the amount of sweat on the hands of the person as some seem to think. The Clearing Biofeedback Meter compares to existing devices as the electron microscope compares to looking through a magnifying glass.

When a person (the 'client') contacts a memory with negative charge<sup>4</sup>, the electric field around his body is affected and causes a reaction (a 'read') on the meter's needle. The meter gives certain reads when the truth is being said. If a person makes up a story, or tells a false story which he believes to be true, the needle on the meter will read differently from when the person is telling the truth.

---

<sup>3</sup> Wheatstone Bridge: An instrument or circuit consisting of four resistors, or their equivalent, connected in a loop, with a galvanometer\* linking the junction between one pair and the other. Used to determine the value of an unknown resistance when the other three resistances are known. (\*A galvanometer is a device for detecting or measuring small electric currents by means of mechanical effects produced by the current to be measured).

<sup>4</sup> Charge: Charge is a mental energy phenomenon felt by anyone who experiences something unpleasant, dangerous or lethal. Charge is manifested by negative emotions such as anger, fear, grief, apathy or death wishes.

## **B) Acknowledgements**

An acknowledgment is a word or words that lets the client know that what they have said has been UNDERSTOOD and that THE COMMUNICATION IS NOW COMPLETE. It puts a “full stop” on what has been said.

‘Thank you’ is a common acknowledgement. Other acknowledgements could be ‘I understand’, ‘well done’, ‘I get it’, ‘great’. It is not WHAT you say so much as HOW you say it.

This is an extremely powerful technique. It enables a person to finally drop what they have been carrying. They can then see the next ‘layer of the onion’ underneath.

Charge is a mental energy phenomenon felt by anyone who experiences something unpleasant, dangerous or lethal. Charge is manifested by negative emotions such as anger, fear, grief, apathy or death wishes.

Acknowledgments help to take emotional charge off a person. This gives them the strength to face the truth. Also, once a story has finally been told, acknowledgments enable the client to finally put the past behind them and begin to change their life.

Acknowledgments also help to give a client certainty. If a person has memories, and they are sufficiently acknowledged, eventually they will come to realise the truth about their memories. They will realise that either (1) they really are true or (2) they are false – and they will realise then what really happened.

A Clearing Practitioner answers EVERY question with an acknowledgement. And gives an acknowledgement every time the client does what they are commanded to do.

Traditional psychology, however, never uses acknowledgements. Instead, the psychologist answers each answer with ANOTHER question. The client is left with hundreds of open loops. This keeps him stuck with his problems – and keeps him coming back to the psychologist, as he hopes to finally get a “full stop” to his answers.

In these records, acknowledgements are not recorded. One merely assumes that an acknowledgement was made for every answer from Pat, or for anytime that Pat did as I told her to do.

### **C) The client is fully conscious throughout the session**

There is no hypnosis<sup>v</sup>, or induced trances involved. A client is free to leave the session whenever she wishes. The success of the session depends on her full conscious support.

A major difference between clearing and hypnosis is that in clearing you are (painfully) aware of time going by - hence fully conscious. In hypnosis, people have no idea how much time has gone by, therefore not fully conscious.

Personality change and improvement are not simply brought about by the practitioner acknowledging the client, but also by the CLIENT acknowledging whatever it was that she found in the depth of her mind.

## **More on the Biofeedback Meter**

A battery inside the meter sends a very low voltage current (9 volts) through a wire which is attached to ordinary tin cans which the client holds in her hands. The current interacts with the body's electro-magnetic fields. Only two volts actually arrive at the client.

A gross simplification of how the meter works is that the meter measures the resistance of the body as it is influenced by the electromagnetic field around it. It does not react to the amount of sweat on the hands of the client (as some may think).

When a person locates a memory with charge on it, the electric field around his body is affected and causes a reaction which registers as an INSTANTANEOUS needle movement on the meter. The more painful the memory, the more resistance there will be to the client remembering what happened – and the more resistance there will be, which will show up on the meter.

The meter measures **one level below consciousness** (i.e. on a pre-cognitive level). When working with a skilled Clearing Practitioner, a client can locate a particular event, the nature of that event, the location of that event in space and time and the amount of force contained within it – and the meter gives feedback.

A person can recall ANYTHING, no matter how deep. However, it can be easier to remember memories with **charge**.<sup>v</sup>

Volney Mathieson presented his ideas about a biofeedback meter to Ron Hubbard, the inventor of Dianetics in 1952. A version of the meter known as the E-Meter (Electro-psycho Meter) was later put into widespread use in Scientology and Dianetics.

The modern Clearing Biofeedback Meter is designed to measure mental state and changes of mental state accurately and quickly. It is a modern version of what is known to psychologists as the psycho-galvanometer.

Reading a biofeedback meter properly takes extensive training and experience. To start with, the Clearing Practitioner should have received a minimum of 40 hours of clearing themselves, before giving it to others.

The Clearing Practitioner must also be trained in the ability to stay 'Present', no matter what the client says or does. To "Be Present" means to "Be here, Be now, Do nothing". Have you ever talked with someone and you knew that while they were physically present, part of their mind and spirit was elsewhere? Or in another time? Many people are not

present for at least some of the time. They particularly tend to not be present when they hear things which they don't like hearing – either because the things being discussed are too unpleasant, or are outside the person's reality<sup>5</sup>. It is crucial for a successful clearing session that the Clearing Practitioner be 100% present at ALL times.

To the beginner the needle seems like a madly wiggling wild thing. But to the expert each needle motion allows exact conclusions regarding the client's attention. The meter does not tell the practitioner what picture the client sees. But it does tell him when the client is approaching a "hot area" (an area with a lot of charge), when he is backing off from it and when there is no charge left and no more information to be gained from the session.

Occasionally the client has memories which he has picked up from another source. He might have accidentally or intentionally gained false memories or memories belonging to someone else. When this happens, the meter reads in a different way. Therefore a good Clearing Practitioner will soon ask "Is it possible that these are not your memories?".

The client will then realise whether or nor they are his. The truth<sup>i</sup> of his answer will be confirmed by the meter. Further questioning soon finds the true source of where any false memories come from. The proof of this is again indicated by reads on the meter.

The validity of the truth of what is discovered during a session is confirmed by the client having many changes during the session. Sudden body movements may manifest. The client may go from feeling light and happy one minute to VERY heavy and tired the next. And later back again to feeling light and happy. The client may suddenly burst into tears, or shake. Often pains suddenly appear and then disappear in various parts of the body. And each of these physical changes is usually congruent with what has been said during the session.

The client usually makes changes for the better after a good session. Things that are discovered by the meter, and looked at and talked about thoroughly, will not trouble the client again. Often the client will have large positive improvements in their happiness, wellbeing and ability to "make things go right".

If memories are hidden from us, there is a reason for this. Sometimes the memories are too painful for a person to look at straight away. This is one problem with **hypnosis** - a person is dumped into painful memories, whether they are emotionally strong enough to face them or not.

---

<sup>5</sup> Reality: Agreement to what is. For example, two people have the same reality if they both like dogs. They have different reality if one likes dogs, but the other dislikes them.

In addition, hypnosis **does not remove** the electrical / emotional 'charge' on the memory. This can cause problems because the person now has activated memories with the charge fully intact and close to the surface – whereas previously the memories and charge were further away and less likely to affect the person as often.

One of the many advantages of the biofeedback meter is that the Clearing Practitioner asks the client **ONLY** about things which are reading. Anything which does not read is either:

1. Not a problem
2. Not true
3. Too big for the client to look at, at that time. However, these things occur in layers, like an onion. Once we take off the outside layer, the next layer is smaller. Once a person has looked at the less painful things, they can go back to the other issues which were originally too big to be looked at, and they will find that they can then face them easily.

Another important aspect to getting results is that the person doing the talking must feel totally safe. They must feel that the person they are talking to will believe them, and not be threatened or upset by what they are saying.

## The Mind

What is the mind?

The mind is an energy field. It is partly made up of what are called 'pictures'. Mental image 'pictures' are often visual. But they are not always visual. Mental image 'pictures' can **ALSO** be in the form of unwanted thoughts, emotions, physical sensations and pains.

The mind is not the brain. The brain is a physical 'switchboard' between the mind and the body.

We are not a body. We are a spirit (or soul) which lives in a body. We, (the spirit) communicate with the mind, which communicates with the brain, which communicates with the body.<sup>vi, ii</sup>

Where is the mind? Part of it surrounds our body. It is not all 'in our head'. A simple experiment will prove this. Ask someone to close their eyes. Tell them not to open their eyes until you tell them to. Then tell them to visualize the dashboard on their car. Ask them to let you know when they have done that. Once they have done that, tell them to **physically touch the picture** of their dashboard **with their finger**.

Every single person who does this touches an area IN FRONT OF THEIR BODY. They do not try to touch their head. This shows that the pictures that form our mind are OUTSIDE us. We look at the outside world THROUGH our mind.

This is one reason why different people view the world differently from others at times - because their mind is full of pictures from their past, which can affect their view of the present **when the pictures are activated**.

We record EVERYTHING that happens to us. Even when we are asleep or unconscious. This has been shown many times, for example, by people remembering in Clearing sessions what happened to them during operations and at their birth.

The mind has different levels of activity. On a lower level people are controlled by the pictures in their mind. They are activated by these pictures which they experience energetically.

On a higher level is rational thinking.

**But there is an even higher level than thinking. There is KNOWING. It is much more powerful to KNOW something than to THINK it. Ultimately, Clearing works to improve a person's knowingness.**

## **The File Clerk**

There is a part of each mind which has been called “the file clerk”.<sup>vii</sup> When it is told to go and get a memory from the person’s mind, it does so if the memory is there. If the person is told to remember their last birthday, the file clerk goes straight to the files and gets out the last birthday. If told to remember what the person was doing on a certain date, it will do that as well. People who have a clearing session are usually amazed at how quickly long-forgotten memories will resurface. They do so because the Clearing Practitioner gives **precise, carefully worded** commands to the File Clerk.

The File Clerk gives answers as long as the client has the power to confront what’s coming<sup>ii</sup>. Otherwise it’s hypnosis when the person is “switched off”.

Sometimes the memories that are remembered are so unusual that the client may doubt the truth behind his memories. In that case, all he has to do is "make up" something that is equally strange. The "made-up" memories will not register on the meter. Only what is TRUE will read on the meter.

The Clearing Practitioner will then get the person to look deeper at areas that are registering on the meter, by commanding them to do so, which activates the file clerk. This will get to the whole truth extremely quickly. The meter measures one level below consciousness. It reacts to signals from the client that are so subtle that they aren't perceptible to the eye.

## To “As is”: How Negative Thoughts and Emotions are Cleared

In the physical universe, two things cannot exist in the same space at the same time. This also applies to the invisible universe of mental charge.

A memory exists as an energy in a person’s mind called a ‘picture’<sup>6</sup>. It is not the memory that causes the problem, it is the **NEGATIVE CHARGE** associated with the pictures that causes negative emotions, thoughts and behaviour.

When we get a client to remember **EXACTLY** what happened to him, he creates a perfect copy of the original picture. When he creates the perfect copy this vanishes the charge on the memory. The person then knows what happened, but the pictures and charge which were affecting him negatively have now gone.

Ron Hubbard called this process to “as-is” something. The person looks at a memory exactly as it is, at which moment it vanishes and ceases to exist. The memory will remain as a gentle knowingness, but without the painful charge that caused him problems.

You yourself have probably “as-ised” things at times without realising it. Think of a time when you had an absolutely **BRILLIANT** idea. But a few moments later you couldn’t remember what it was. No matter how much you thought, the memory never came back. You as-ised it. After creating the first thought, you then created another perfect copy. Two things cannot exist in the same place at the same time – and so your thought vanished.<sup>ii, iii</sup>

---

<sup>6</sup>Mental image ‘pictures’ are often visual. But they are not always visual. Mental image ‘pictures’ can **ALSO** be in the form of unwanted thoughts, emotions, physical sensations and pains.

## **The Language of the Clearing Biofeedback Meter**

### How To Understand the Notes from the Sessions

#### **Tone Arm (TA)**

As the current of the meter runs around the client's body, it meets resistance. When the client begins to remember painful past memories, the resistance of his body increases. The needle of the meter moves to the left. In order to keep the needle on the "set" position on the dial, the clearing practitioner has to move the needle to the right. To do this, he turns a knob on the face of the meter clockwise. This allows more current to flow out in order to match the increased resistance.

This knob is called the Tone Arm. It measures resistance in the following amounts:

<b>Tone Arm (TA)</b>	<b>Ohms (resistance)</b>
2	5,000
3	12,500
4	30-40,000
5	150,000
6.5	10,000,000

A person who is in a happy state of being would probably have a tone arm between 2 and 3.5. TA measures the mental tenseness of the client. TA of 5 and above is *very* high.

Note that TA goes up EXPONENTIALLY, not linearly. If a person gets TA of 5 and above, they will generally feel quite 'heavy. I describe this sometimes as feeling like a block of concrete. When the needle is between 2 and 4, when they will generally feel light and happy.

TA is one of the two things to look out for when reading the records of the sessions. TA is recorded as numbers throughout the sessions, in the right hand column.

#### **Notice when TA goes up.**

**This means that mass is being pulled in.** This generally means that a memory is brought in which the client does not want to remember now. High TA can also be caused by other things such as drugs, tiredness or pain in the body. It can also be caused by looking at the wrong areas. Or by a person lying. Or for there being something the person does not want to tell the Clearing Practitioner.

**Most importantly, notice when TA goes down.**

Two things cannot exist in the same place at the same time. When the client remembers what happened, he creates a perfect copy – which cannot exist in the same place as the original memory. He **“as-ises” the pictures<sup>7</sup> in his mind.** Therefore the tension of the memory vanishes, and the person becomes less dense. The TA then goes down.

This is why we say that he has seen the truth. Since TA and a read can occur ONLY by creating a PERFECT copy of an event, it therefore stands to reason that this is a TRUTHFUL copy of the event.

TA goes down when the client remembers at least part of the truth. This reduces the charge on the incident. A drop of even 0.1 is meaningful. A sudden drop of 0.5 – 1.5 is a major realisation of the truth.

↓ This symbol beside a number in the right hand side of the right hand column denotes when there is a sharp drop in Tone Arm.<sup>iv,vi</sup>

---

<sup>7</sup> Mental image 'pictures' are often visual. But they are not always visual. Mental image 'pictures' can **ALSO** be in the form of unwanted thoughts, emotions, physical sensations and pains.

## **READS: Short Falls, Falls and Long Falls**

A **read** is a sudden movement to the right by the needle. Depending on the size of the movement of the needle, it is called a tick, a short fall, a fall or a long fall.

A read means a charged item was located and the charge reduced. The charge is on the words that were said IMMEDIATELY before the needle moved. This is called an 'instant read'.<sup>v</sup> How does charge come about? By the client wishing to know something and not knowing it. The harder the client wants to know and the more difficult it is for him to find out, the more charge there will be.

Finding out and knowing brings relief. Anytime the client experiences relief there will be a read.

In the notes a symbol for a read is placed directly opposite the last word that it read on **instantly**, in the right hand column. If there is **any** time delay at all between the client speaking and a read, then the symbol for the read will be placed on the **next** line.<sup>v</sup>

## **Floating Needle**

A 'floating needle' occurs when the needle idly moves from side to side without any patterns or reactions in it. It just idly floats about. This is the most difficult needle characteristic to identify, because a series of falls could look like a floating needle.

A floating needle occurs when a major amount of mental mass has been erased. It means that there are no more painful or stressful memories, at least for a short while before the next lot of memories come in.

During a session, a floating needle may occur for only a second or two. Hopefully the session will end with a big floating needle. A big floating needle which lasts for a longer period of time indicates that all of the stress from the painful memory has been removed. It also indicates that all items of truth which are important to the client have been uncovered and talked about.

If the session does not end with a floating needle, then another session at a later date should remove the remainder of the charge.

Because a floating needle can be hard to identify, the best way to confirm it is to look at the client. If he is bright, light and happy, then that is a floating needle. If he is still tense, tired, sad or generally exhibiting negative characteristics then it is probably not a floating needle, but a series of falls and long falls.

A floating needle is identified in the notes as "F/N".<sup>v</sup>

## **'Yes' and 'No'**

The language of the biofeedback meter is simple. If you ask a question and get a read (that is, any type of fall) that means 'yes' to the question.

If you get no read that may mean no or it may mean yes.

If the client answers 'yes' to a question and the needle reads on 'yes' then that verifies that the answer is yes.

If the client answers 'no' to a question, and the needle reads on 'no' then that verifies that the answer is no

The read confirms the practitioner's question or the client's statements as true. Why? Because two things cannot exist in the same place at the same time. We have seen something exactly as it is, even if only in part. Truth is the exact consideration: the exact time, place, form and event.<sup>i</sup> Once the client creates the exact duplicate of what happened, charge is released.

(Lying or creating a false truth would only ADD to the charge that is there. This would stop the needle from reading and cause TA to go up).<sup>v</sup>

## **Rock Slam**

R/S Denotes a rock slam

A Rock Slam occurs when the needle has a wild, erratic movement. It is quite amazing to see when it happens. The needle will take on a life of its own. This happens when either (1) there is a faulty connection in the wires or (2) there is an “evil purpose”. ‘Evil’ means destructive and / or negatively controlling. The evil purpose could belong to the client, or to anyone or anything in the incident.<sup>vi</sup>

I had been told that Rock Slams were quite rare but they were encountered not infrequently during these sessions.

## **Underlined v. not underlined words**

Words that are not underlined were said by the client – in this case, Michael Relfe.

Words that are underlined were said by the practitioner – in this case, Stephanie Relfe.

## **Other Abbreviations**

**C/L** Denotes a communication lag.

This occurs when the client does not say anything for a period of time. He is in 'lag' with regards to an answer to the question.

**VGI** Denotes "Very good indicators" meaning that the client is bright, light and happy looking.

**X** An 'X' is sometimes written when there is NO read. This is usually written about an answer to a question, to record that there was in fact no read on the answer to the question. In this case, we do not know whether or not the answer was true, but suspect that it may not be absolutely true.

### A summary of symbols used

Symbol	Stands For	Description
Tk	Tick	The smallest needle movement of all. Barely discernible.
SF	Small Fall	The needle moves 0.6 to 1.5 cm to the right
F	Fall	The needle moves 1.5 to 3 cm to the right
LF	Long Fall	The needle moves 3 to 4.5 cm to the right <sup>v</sup>
↓	Sudden drop in Tone Arm	The most significant read is when there is a Long Fall at the same time that there is a sharp drop in Tone Arm. This is denoted by the symbol ↓ beside the tone arm number.
C/L	Communication Lag	The client has stopped talking before he has fully answered the question or completed the command given by the clearing practitioner.
F/N	Floating Needle	Means that there are no more painful or stressful memories activated, at least at this moment.
R/S	Rock Slam	Indicates the presence of an evil purpose
VGI	Very Good Indicators	The client is looking bright, light and happy
X	No read	The needle did not move at the instant end of the question or statement.
Numbers	Tone Arm	See chapter on Tone Arm (TA)

#### NOTE ON METER SENSITIVITY

Unless otherwise stated, the meter sensitivity was set at eight (8)

#### NOTE ON THE SESSIONS

Not every word is written here. Sometimes I wrote down just a few words to abbreviate what was going on. However, as much as possible, whenever what was said was reading or affecting TA or body movements, every word is recorded.

## **Metabolism**

At the beginning of each session the amount of energy that the person has is measured. This is done by asking the person to take a deep breath and then let it out quickly. The needle will then fall a certain distance to the right, unless they have no reserves of energy when it will not fall at all.<sup>v</sup>

The distance that the needle falls is recorded as “metabolism”. The basic rule is that a session can only be successful if the needle falls at least one inch to the right after the person lets their breath out. This is because doing a session requires quite a lot of energy on the behalf of the client, as well as the Clearing Practitioner.

Lack of metabolism is usually caused by lack of sleep or food.

## **Drugs**

A session can be run successfully only if the client is not under the effect of alcohol or psycho-active drugs, (ie. Anything more powerful than aspirin).

The general rule is that alcohol should not be consumed 24 hours before a session and drugs not taken seven days before a session.

## **Repeating Technique**

Our ideal state is to know everything.

The possibility of this can be better understood by reading "[The Holographic Universe](#)" (by Michael Talbot). In this book Talbot uses a hologram as a model with which to explain reality.

However, most of us don't know everything. At times we feel that we "don't know". Often the reason why we "don't know" is because we are being affected by things in our past which are still in our mind.

During a session, when someone says anything which denies that they know everything that happened in the incident being looked at, the clearing practitioner can get them to repeat what they just said. For example, if the client says "I don't know", "I can't see anything" or "I can't remember", they will be told to repeat that exact sentence. ("I don't know, I don't know, I don't know, etc.)

Usually, once the client has repeated this statement several times, the underlying truth will surface and they WILL be able to know, see and remember. This is because they as-ised at least part of the reason why they "didn't know" when repeating this statement.<sup>vii</sup>

### The Clearing Practitioner's Code of Ethics

The session will work only to the extent that the client feels that they are safe with the Clearing Practitioner. Therefore, a "Code of Ethics" was devised which has been found to be essential for successful sessions.<sup>iv</sup>

1. I agree not to evaluate a client, by word or thought. That is, I agree not to judge a client or to tell them what I think is the truth. I agree to simply question them according to how the meter is reading and to lead them to make their own discoveries.
2. I agree not to invalidate a client by word or thought, no matter what is discovered in a session. That is, I agree not do anything that would put the client down in any way whatsoever.
3. I agree to keep all appointments once made. This is because once the appointment is made memories can begin to get stirred up, getting ready to be handed over in the session.
4. I agree not to work with a client later than 10 pm, unless an important action needs to be completed. I agree not to work with a client who is physically tired or has not had a meal before the session. This is because a session requires a considerable amount of energy on the part of the client as well as of the Clearing Practitioner.
5. I agree not to work with a client who has consumed alcohol within the last 24 hours, or drugs within the last week.
6. I agree not to sympathise with a client but to be effective and help them to be the very best they can be.
7. I agree to never get angry with a client.
8. I agree not to let a client end the session, no matter what may come up, but to complete what I have begun.
9. I agree to hold a safe space for the client during the session, and to be a safe person for the client to contact at any time in the future.
10. I agree to have no sexual relationship with a client<sup>8</sup>.
11. I agree to maintain ABSOLUTE CONFIDENTIALITY of the data revealed in the session.<sup>9</sup>

---

<sup>8</sup> I understand that this rule was made originally because it was believed (1) That it was not possible for two people to run a successful session if there were out-of-integrity actions between the two people and (2) That a Clearing Practitioner could not remain sufficiently present during a session when his/her client became upset, if the Practitioner had been sexually involved with the Client. I did not keep this rule in this case because we were married by now, and Book 1 proved that I could successfully work with Michael.

<sup>9</sup> This agreement was not broken in these sessions. It was **the client himself** who requested that I write up and later publish the sessions.

## **Kinesiology**

The sessions in these records were even more successful than a normal Clearing Session because they included the use of Wholistic Kinesiology on occasion.

Kinesiology is a new technology which works directly on the body. It was developed by doctors, chiropractors and acupuncturists in the U.S.A. One of the most important people in this development was George Goodheart. They pooled their knowledge and added it to Chinese medicine to develop a technology which is amazingly efficient at balancing the body energetically so that it can return to excellent health, energy and emotional strength.<sup>viii</sup>

Wholistic Kinesiology incorporates much of the best of different schools of kinesiology including Touch for Health<sup>ix</sup>, Applied Kinesiology and Educational Kinesiology. It also includes new discoveries and newly developed corrections such as the Wernicke's Correction (described later in these notes).

### **Kinesiology differs from all other methods of healing by its use of muscle testing.**

The basis of muscle testing is that the body is like an electrical piece of equipment, which is controlled by an incredibly complex **computer**, namely the brain. The brain is continually in communication with each of the 639 muscles in the body.

If a muscle is electrically in balance, it is possible to measure a constant electrical signal from the brain to that muscle and back again, much the same as two faxes 'talking' to each other.

However, when the body is overstressed (through a chemical, emotional, structural or electrical cause), the electrical signals in one or more muscles go weak. It is like a fuse in your fusebox blowing. The body figures that it is better to blow a fuse than the whole thing.

This is the basis of muscle testing. For example, if a person has a particular muscle in their arm 'out of balance' (as we say), then they will not be able to hold their arm in a certain position when the kinesiologist applies pressure to it.

This is particularly significant when you realise that many different parts of the body are in communication with many other parts of the body. That is,

<b>Muscles</b> (communicate with)	<b>muscles</b>
<b>Muscles</b> (communicate with)	<b>organs</b>
<b>Organs</b> (communicate with)	<b>muscles</b>
<b>Organs</b> (communicate with)	<b>organs</b>

In the above example, the muscle itself may have been weakened. However, if it is the particular muscle that communicates with the stomach the muscle may be weak because the stomach is out of balance. In another example, a person may have a weak bladder because their bladder is out of balance. However, the bladder communicates with the ankle muscles and therefore a weak bladder may have been caused by weak ankle muscles. It is virtually impossible to completely heal the body without taking the whole picture into account.

Once the weakness is located through muscle testing, the kinesiologist then 'talks' to the body. For example, by use of muscle testing the kinesiologist can ask the body any number of questions.

For example, what caused this muscle to go out of balance? If it was a chemical he can ask the body what specific food or other substance caused the body to go out of balance. If it was a deficiency, he can find out what food will re-strengthen the body.

A kinesiologist can also "balance out" a negative substance. This is a correction which enables the brain to energetically correct harm done to the body by a harmful substance.

If you wish to learn kinesiology, please visit [www.tfhka.org](http://www.tfhka.org) and/or email [stephanie@relfe.com](mailto:stephanie@relfe.com) for information on her training video.

## **Emotional Stress Release**

If an imbalance is caused by a negative emotion, a kinesiologist can find out what specific emotion is involved. It is important to realise that emotions ("energy in motion") can be stored in the mind, but they can ALSO be stored in the body.

- Clearing removes negative emotions from the mind.
- Kinesiology removes negative emotions from the body.

A kinesiologist who locates an emotion or incident stored in the body can use muscle testing to find out any number of things, including WHEN it happened, and WHO was involved. It is crucial that the kinesiologist have a totally open mind when doing this.

Once the emotion is located, the kinesiologist can then do an extremely simple form of emotional stress relief.

He/she lightly places a few fingers on the other person's forehead, while the person 'looks at a video' of the emotion. When we are under stress, blood goes to the back of our brain (where the past is). But when a hand is placed on the forehead, blood moves to the front of the brain (which unfortunately most of us use only 5% of the time) where new choice is located. Within a very short period of time (often a few minutes) the person will be a lot less emotional about the particular incident, and therefore a lot less affected by it.

If you find at any time after reading these notes you experience negative emotions, it may be that something in the book has restimulated something in your own mind.

**It would be a good idea for you to do Emotional Stress Release to yourself – put a hand on your forehead and close your eyes, while you look over (in your mind) what you have been reading, or doing that day.**

## **'The Wernicke's Correction'**

### **Removing sabotaging commands from the Wernicke's area of the Brain, using Kinesiology**

The mind is an energy field. Clearing removes charge from the mind. But clearing does not necessarily remove negativity from the brain. The brain is a physical 'switchboard' between the mind and the body.

Research has shown that words are stored in a specific area on the left side of the brain. What is not so well known is that there is an equivalent area in the right half of the brain which is also involved with language. Both these areas are called the Wernicke's area.

According to Professor Julian Jaynes, lecturer in Psychology at Princeton University, up until around 3,000 years ago, mankind was basically not conscious as he is today. He did not think in terms of concepts, and he was not introspective (i.e. he did not 'turn inwards and think about himself).

Instead he operated with what is called a "bicameral mind". The bicameral mind was man's mind before he developed self consciousness. Early man did not make any decisions on his own. The concept of "self", of being independent and self-reliant, did not exist.

Whenever a decision had to be made, early man looked for a "sign" from an outside authority, such as a king or a god, to tell him what to do. For example, if he went along a road which divided into two roads, he might throw some stones into the air to see which way they fell, to tell him which road to take.

Other signs that early man used to determine what action he should take when he was faced with a decision were often "voices" which he heard in his head and which brought immediate obedience.

Experiments have shown that if the Wernicke's area in the left half of the brain is electrically stimulated during speech, it will interfere with the ability to talk properly, almost halting speech.

The same type of stimulation to the Wernicke's area in the right brain, however, causes a person to hear "voices" or "commands". These are usually of an authoritarian or dictatorial nature, and can be identified as the voice of one who was feared, admired or "looked up to" by the person being stimulated. We call these commands "Wernicke's commands", because they are commands stored in the Wernicke's area of the brain.

The two Wernicke's areas are connected to each other by a thin bridge of tissue. This is where the term "bicameral mind" comes from. It seems that the "voices of the gods" were in fact internal dialogue coming from the right half of the brain.

If mankind was to become civilised, this simple mind had to greatly improve and consciousness had to develop. However, the bicameral tendency is still present today! It is the bicameral mind, the right side of the Wernicke's area, which we "hear" when we hear those little words of self-invalidation and sabotage.

The 'authorities' who might have put commands into this mind are no longer "gods" - they are anyone that we might have looked up to at some time. These can include parents, teachers, peers, politicians, and doctors.

Have you ever been told to "grow up", "shut up", "eat up", "forget that" or "give up"? Have you ever been told "you're mad", "you're bad", "you're stupid" or "you'll never make it"?

If somebody you thought was powerful said "you're too fat", "you'll never change", "you'll forget", "you're a slow learner", "eat ALL your food", "you're not good enough", "strong enough", "pretty enough", "clever enough" "you'll go to hell" etc. etc. **then they may have made an 'entry' in your right Wernicke's area, an implanted command, which is still influencing you to this day!**

When people do any work or therapy to get rid of negative beliefs, the beliefs they try to get rid of things are usually worded as "I ..." eg. "I'm not good enough" or "I'm too fat". But "find the truth, and it will set you free". **These beliefs are not filed in the brain (which is like a super powerful computer) under an "I" point of view.** The commands are entered as said by another person, as if the person is right there, talking to you! For example, the belief may be "I'm no good" but the original command (which is stored in the brain) was "**You're no good**".

Normal kinesiology has a correction called a Goal Balance which is designed to get rid of negative beliefs. However, it often does not seem to work.

**However, in 1996 Australian kinesiologist David Bridgman made an astounding discovery. He realised how to remove negative beliefs from the brain!**

The key to removing these beliefs is that they are stored in the brain as though another person said them e.g. "You won't remember". The brain then tries to make sense of a command and translates it, for example, as "**I** won't remember". This command then interferes with the person. To get rid

of the command you must find the EXACT wording of the command, which in this case is "You won't remember".<sup>x</sup>

This specific kinesiology procedure enables a person to REMOVE the sabotaging commands from the brain. Instant improvement is generally noted in the person who has done this.

These commands can be put in our brain either unintentionally (as by our parents) or intentionally (as by the mind controllers).

These commands are hidden in the brain a bit like the way that 'drop down menus' are hidden on the computer screen. Sometimes you can't see the menus, but they are still there. When you do the correct kinesiology procedure, the sabotaging commands "drop down" and then you can delete them. But they do not all appear at once. It can take a number of sessions to get rid of them.

**This is a simple, revolutionary and very powerful procedure.**

The key to doing these corrections successfully is to get the EXACT wording. Generally, throughout these sessions it would take up to seven attempts each time to get the precise wording. Mostly the correct wording would be found after two or three attempts. Throughout these sessions, I did not record our incorrect attempts to find the commands. Only the successful attempts were recorded.

Full details on how to do the Wernicke's correction are given in Appendix VII.

***This information on The Wernicke's Correction has now been published as a chapter in a brilliant new book "The Universal Seduction" written by many authors who go under the collective name "Angelico Tapestra". See [www.theuniversalseduction.com](http://www.theuniversalseduction.com)***

## **Organisation of The Mars Records: Sessions & Chapters**

Generally each chapter is a description of one session of clearing and / or kinesiology and is named a “session”.

However, at times a chapter was made up of an event which was not a session, but I felt was still relevant to the story. In this case, the chapter is named as a “chapter” rather than a session.

There is a break in the sequence of session numbers towards the end of the book. This was because I decided to include some later sessions – the ones where reptilians stole our baby. I felt that the missing sessions (110, 111 and 112) did not need to be included in this book.

## **Session 58: Wernicke's Commands X: Memory Recall**

26<sup>th</sup> March 2000

Summary: We both woke up feeling "like we'd been hit by a truck". When I tested Michael, his cloacals were out of balance with eyes open, and with eyes shut. He was also 'switched' (to do with right and left brain integration and his stomach was out of balance (Pectoralis Major Clavicular muscles). I had to do Emotional Stress Release on the emotions "frustrated" (at being taken), "not-heard" (by the military) and "no-choice".

An interesting point: We had looked at the scars on his groin yesterday, when they were red and obvious. On this day they were whiter and less obvious, but went HIGHER UP by about ½". The energy of the right scar needed rebalancing. (Physical scars can create dams in the energy of the meridians).

When Michael tested me I was also switched and had my cloacals out of balance. The cause of this was shown to be electrical – from the machine that made me go to sleep.

We then did the kinesiology Wernicke's Correction. Once again, there were ten negative commands to be removed from the right wernicke's area of the brain . These were done with EYES OPEN:

1. "Don't remember" (from the military)
2. "This isn't happening" (from the military)
3. "Forget this night"
4. "Forget about the military"
5. "Forget about aliens"
6. "Forget about this facility"
7. "You imagine this happened"
8. "You made this up"
9. "This is all a dream"
10. "We're not here"

We then ended the session, because by this state Michael was too exhausted to continue.

**Please note that The Mars Records, Book 1, was published on the internet between this and the last session, on 2<sup>nd</sup> April 2000.**

Michael had been harder to live with since he had been taken last time. We finally found the time to do a session. After that, he returned to his normal happy self.

We then did the Wernicke's Correction. The wernicke's were the SAME as those done in the previous session, except that this time we had to do them EYES CLOSED:

1. "Don't remember" (from the military)
2. "This isn't happening" (from the military)
3. "Forget this night"
4. "Forget about the military"
5. "Forget about aliens"
6. "Forget about this facility"
7. "You imagine this happened"
8. "You made this up"
9. "This is all a dream"
10. "We're not here"

At the end Michael was too exhausted to continue. He felt as though his head had been pulled apart.

## **Session 60: 'Abduction' 23<sup>rd</sup> April & Wernicke's Commands**

24<sup>th</sup> April 2000

Again, we both woke up feeling that we were taken last night. We were both super argumentative. I felt awful. Michael felt his scars were more prominent.

Michael balanced me, and again my cloacals were out of balance. Again the cause came up as electrical (from the machine that puts me to sleep). There was a difference however. This time I didn't feel totally drained like I had at other times. The kinesiology where we balanced out the effect of the machine on me was beginning to have a positive effect. The kinesiology was helping my body to recover from the machine.

Michael's cloacals were out of balance also. The cause came up as emotional. Again, the cause was Wernicke's commands. Again, they were the SAME TEN as last time! These were removed with EYES OPEN:

1. "Don't remember" (from the military)
2. "This isn't happening" (from the military)
3. "Forget this night"
4. "Forget about the military"
5. "Forget about aliens"
6. "Forget about this facility"
7. "You imagine this happened"
8. "You made this up"
9. "This is all a dream"
10. "We're not here"

He got rid of these more easily than last time.

We also balanced out four drugs.

He then said he had a pain at the top of his left groin scar. When I touched this, he tested weak. I rebalanced the energy around the scar, and he then tested strong when I touched his scar.

After all this, we both felt loving, pretty good and peaceful again, although a little tired.

## **Session 61: More Wernicke's: Memory Recall**

3<sup>rd</sup> May 2000

I attempted here to start a session on the meter to look at the previous two 'abduction' incidents, but we couldn't do anything because there were more wernicke's commands in the way. Again, there were ten. All were from a military guy. This time they were different from the last several times:

1. "This never happened".
2. "You weren't here"
3. "You're dreaming.
4. "Forget us". (We tried "Forget about us" but that wasn't it).
5. "Go to sleep"
6. "This is a dream"
7. "It's just your imagination" (We tried "You're imagining this, but that wasn't it).
8. "This didn't happen"
9. "Memory blocks are on line" (This was after about ten attempts).
10. "Don't remember"

## Session 62: Mechanical Memory Blocking Device

2<sup>nd</sup> May 2000

Summary: I was still trying to get access to what happened during the two 'abduction' incidences on the nights of 25<sup>th</sup> March and 23<sup>rd</sup> April.

Instead of finding out what happened, we came across another memory block. This time it was a new mechanical device in his head designed to stop recall. The device was deactivated.

Michael was cranky before the session, and no longer cranky after the session.

## **Chapter 63: A Breast Lump & Radionics**

30<sup>th</sup> May 2000

We got the biggest reprisal we had had since publishing The Mars Records, Book 1. There had been a number of times when we felt a psychic backlash which caused us to feel very drained and 'down', but we were always able to handle this by prayer and other means.

However, on Tuesday 30 May I woke up in the morning and immediately felt a pain in my right breast. I was VERY surprised to find a large, hard lump about 1.5" wide, on the right hand side. Nothing like that had ever happened before. I am very healthy, and constantly work to improve my health with kinesiology, diet etc.

Muscle testing indicated it wasn't cancerous or a cyst - although I believe it would have developed that way if we hadn't dealt with it. Muscle testing showed it was related to people associated with the Mars Records.

Michael prayed for me (eg "In Jesus name I break every curse, spell and psychic prayer put upon Stephanie by any government group, MIB group, witches satanists or masonic group, NWO group, illuminati group, NRO group, NSA group, CIA group, military group, army group, navy group, air force group, marine corps group, Mars Defence Force Group, Mars Program group, reptilian group, draconian group, grey alien group, insect alien group. In the name of the lord Jesus Christ I break every soul tie, communication link, insertion point, communication line, surveillance line, hook, radionics attack, death signal hook and disease signal hook put upon Stephanie by (the names above).

Instantly pain appeared in my breast, especially when he mentioned radionics - which I suggested he add when I got an intuitive flash that it might be related to this and I did a lot of burping, belching and yawning which confirmed the spirits were related to radionics, and not cancerous at that time.

We also got a good reaction when he prayed away spirits of "breast infection" and "breast inflammation". Also, something was hooked into the breast itself which was associated with the Mars project and military.

After this, the pain went away. Incredibly, the lump was immediately 50% smaller. We continued to pray a few more times, and the lump was totally gone within about 40 hours.

Up until this time the attacks were mostly demonic in nature, with energy being drained, anger thrown in etc. The radionics thing was a new thing.

We believe that this may be the mechanism behind the MANY researchers (especially UFO researchers) dying of cancer and heart attack. I once read an article outlining how many UFO researchers had died, and it was an amazingly long list. I believe most UFO researchers do not believe in God, and so have little to protect themselves when attack comes their way.

This just goes to show that God's power is more powerful than anything the enemy has.

## Session 64: Secret Testing at Armed Forces Enlisted Station

18<sup>th</sup> June 2000

Summary: First we had to end a telepathic link between Michael and a member of the NSA who was interfering with the session from Maryland USA. Then he remembered that when he went for standard testing and to be sworn in at the Armed Forces Enlisted Station, instead of having lunch he was given extra, special testing by the NSA, and a drug to see if he could take the drug that he would have to take to go through the jump gate. He was then hypnotised so that he would not remember about the extra testing that he was given.

It's the guys at NSA that are doing the special testing.		
The NSA are the big picture guys. They take people from anyone they want. The military are piss-ant compared to these guys.	3.2	
It's interesting. I recently added the NSA to the list of groups I pray to end soul ties with!		

Note: Although Michael has a very sweet and loving mother, he was periodically beaten by an abusive father (when his father drank) during Michael's childhood. Michael's father is now deceased. Michael's father was an air traffic controller who had been in the air force.

The military utilizes this abuse because it creates a vacuum where the father should be. It allows the military to take the place of the father. People with this type of background have what is called "special patriotism" which is a term commonly used by those involved with special forces, and other covert activities. It made Michael much more gung-ho and unquestioning about the military.

Perhaps it is also significant that Michael was born two months premature. In "**The Illuminati Formula used to create an undetectable total mind controlled slave**" by Fritz Springmeier & Cisco Wheeler it says that a premature birth is important for mind control because this insures a traumatization to the child. The premature birth is induced.

## **Session 66: Poison Hand**

27<sup>th</sup> June 2000

Michael had found it very difficult to concentrate at work. He had a very stressful day. While I was praying at home to help Michael to overcome his difficulties at work I got that he had a big black cloud over his head and upper body.

When he came home we had a 'blew'. We decided to do a balance to get rid of whatever the problem was.

I found that he was switched and his spleen (Latissimus Dorsi muscles) was out of balance. Muscle testing indicated the cause was chemical.

What we got as the cause of this chemical stress that caused the imbalance seemed to really go into the land of make-believe (even for us, after all we had been through). However, we went with what we were getting, and it seemed to work.

We were in Melbourne, Australia at the time. On the train to work Michael sat opposite a man who was around 32 years old, with sandy brown hair. Michael especially noticed his deep rat-like eyes. Michael looked up from reading his bible, and he caught his eye. He got a real negative feeling like a 'zap'. He got the idea that someone had watched Michael enter the train, and had radioed on ahead to the next station to have someone watch him.

Michael felt that he had somehow energetically given him the equivalent of the "poison hand". The poison hand is a horrible ancient martial arts technique. They take a child and feed it miniscule quantities of a special deadly poison. The quantities are so small that they don't kill the child. Gradually the doses are increased. Eventually when the child is an adult, the adult is immune to the poison. However, there is so much of the poison in his system that he merely has to touch someone for them to die – which gives this system the name "poison hand".

Before the balance Michael had felt drained and 'down'. After I balanced him and balanced out the effect of the energy of the "poison hand" of the man, Michael felt great.

Michael got help when he prayed in the shower before going to bed, but felt that there was still something else. I had been surprised – If he had really been affected by the energy of a “poison hand” he would, I figured, have been more out of balance than he was. However, it appeared that we hadn’t done all that was required. That night he had a very bad sleep. He woke up around 3 am and couldn’t get back to sleep (which is unusual for him). He said he felt, and he looked, awful.

I guess his body was clearing the effect of the poison hand. I gave him another balance and this time his Central Nervous System (left Supraspinatus muscle) and cloacals were out of balance. That made more sense.

After that, he REALLY felt great!

## **Weird Phone Noises**

The following day something REALLY strange happened. We were home all night. I had used the phone during the day. Several hours later we clearly heard from another room the phone, which was ON the hook, making the noise a phone makes when it’s off the hook. Neither of us had ever heard this in our lives. It went on for a number of times, and stopped before we went to investigate.

This could have happened due to an automated surveillance device that enabled them to listen to our conversation, even with the phone on the hook (This technology exists. If interested, you may be able to find a reference to this at [www.spyking.com](http://www.spyking.com)).

## Chapter 67: A Bad Reptilian

30th June 2000

Summary: Michael had a cold. He got that it was an electrical problem, from an attack, by psychotronic interference.

I felt exhausted. I wanted to go to bed but I was guided to have a solo session on the meter. (People can only go solo after they have done a certain amount of clearing and have been trained. Although even people who can go solo would probably benefit by working with someone else if they were trying to do the kind of sessions that we had been doing on Michael).

Solo Session by Stephanie Relfe:

	5.3 R/S Coughing	I wasn't coughing before the session
I spotted a reptilian, and commanded him to leave	4.5 yawn cough 4.2 F/N	If reptilians, aliens etc. don't leave on the first command, then command them to leave in Jesus name.
		Note the huge drop in T/A, plus the fact that a rock slam has gone to a floating needle.

After this my energy started coming back to me.

This event reminded me of an incident about two years ago when we were in Indianapolis. Michael said something to me which was quite ordinary, but somehow it 'activated' me like I had never been activated before. I was ABSOLUTELY FURIOUS. I felt like I wanted to put his head through the wall. Luckily, I had been in a good mood all day, and I retained enough sanity and awareness for a part of my mind to tell me that what was going on with me was coming from my reactive mind, and had nothing to do with Michael. I tried to handle it by running away. I ran into the bedroom. Michael could see that something had 'got' me and followed me. On one level I didn't want to hurt him, but I still felt FURIOUS. I wanted to get away from him. I tried to run outside, but he blocked my way to the door. Somehow he kept me there long enough for me to calm down.

Within about 15 minutes of this, I started questioning where the rage had come from. I got onto the biofeedback meter. Sure enough – there was a rock slam!!! I got that there was a reptilian in the room projecting total rage straight into my mind. I commanded him to leave which fixed up the problem. I have not experienced this kind of rage since.

## **Session 68: Reptilian Interference**

1<sup>st</sup> July 2000

This morning Michael had a bad cold. The symptoms were tiredness, puffy nose, achy head.

I gave him a balance. His cloacals, central nervous system (Supraspinatus muscles) and throat chakra were out of balance.

Muscle testing indicated that part of this was caused by the emotion "indifference" which came from some reptilians that had interfered with him energetically.

## **Session 69: Missing Piece of Toenail & Alien Drugs**

5<sup>th</sup> July 2000

Summary: This was the second time Michael had been taken since we had published the Mars Records on the internet. The other time (on 23<sup>rd</sup> April – see sessions 61 and 62) had been just 3 weeks after we published, and appeared to be similar to previous abduction incidences.

Then we moved on 22<sup>nd</sup> May. This session describes what we believe was the first abduction incident since we moved. We had noticed a pattern in the past. ‘They’ came to get Michael around the end of the month, except after we had moved to a new state, when it took them a few months to catch up with where we were. Michael figured that they turned up – and if we were not there, then we were “put at the bottom of the list” and left until someone tracked down where we were. He believed that his implants helped them locate him and project the jump gate, but they needed to have a rough idea as to our location first. In other words, they needed to know what the general area was.

On waking, Michael felt that he was taken last night. Last night was July 4<sup>th</sup>, American Independence Day, so the timing appeared to be a sick joke on their part.

The amazing thing was that this morning he had a large chunk, about ¼” square, taken out of the middle of his big toenail – as though he had kicked it on something. This chunk of toenail was not missing the previous night. Once we did the session, the cause of this was made evident.

During the day at work he felt as though he “had been hit by a truck”. He was VERY tired (which is not normal for him). I felt his tiredness as soon as he came home.

Before we did the session, I had to give him a balance. His cloacals were out of balance with eyes open and with eyes shut.

We also balanced out one drug.

Naturally, we first had to remove wernicke's commands. Yet again, there were ten to be removed. They were all given to him by a doctor. They were:

1. "Forget this happened"
2. "Go back to sleep"
3. "This is not happening"
4. "You're at home"
5. "You have no memory of this"
6. "Don't remember"
7. "This never happened"
8. "This was all a dream"
9. "Obey your commands"
10. "This night is erased" (This last one took us quite a while to get)

Then Michael had enough energy for us to do a session on the meter:

No. Where I was they have the ability to stretch time. In a certain area – not the whole base, they've done something to stretch the time. They take five hours and stretch it to 25 hours. Note: Michael had a cold sore the night before he was taken. It was really red and raw. In the morning (after he was taken) he commented that it was almost totally healed, which would normally take a couple of days.

## **Session 70: Demonic Attack**

6<sup>th</sup> July 2000

The next day Michael still felt as though he had been run over by a truck.

I did a balance. His 'gaits' were out of balance. This is similar to having the cloacals out of balance – it takes a big stress to knock them out of balance.

Muscle testing narrowed the cause down to attack by 3,000 to 4,000 beings, mostly (but not all) demons.

I got that the mind control alien drug had opened him up to them, so that they could hook into him.

Michael did deliverance on these beings.

Once he did that, the gaits correction held.

Michael felt like something had lifted off. He began to feel happy again, and as though he was then able to heal.

## Session 72: Assassinations from Mars

9<sup>th</sup> July 2000

Summary: I did this session for two reasons. One was to find out more about Mars (rather than just continually try to catch up with what was going on with his 'abductions'). The other reason was to improve Michael's life. "What goes around, comes around" or "As a man sows, so shall he reap". I did not want Michael attracting bad things into his life as 'payback' for bad things that he had done to others. The real problem was that he could not ask for forgiveness for bad things he had done on Mars if he didn't know what he had done!!!

When a clearing session is done to find out what a person did to another, there is seldom little charge on it. After all, it didn't hurt the perpetrator of the crime! Therefore notice that through this session we had lots of floating needles, and the tone arm stayed lower than it had been in a long time.

## **Session 73: 'They' watch the E-groups**

12<sup>th</sup> July 2000

Last night we had sent out a message about the Mars Records to about 100 e-groups. That may or may not have been meaningful.

This morning Michael woke up with a swollen nose, and he said that his face looked different. He felt that he had been taken again.

On balancing him, his cloacals were out of balance, suggesting that he had in fact been taken again. I also had to balance scars on the inside of his nose.

We then removed the following wernicke's commands:

1. "Forget this"
2. "This didn't happen"
3. "Go back to sleep"
4. "Don't remember this"
5. "It's just a dream"
6. "Aliens don't exist"
7. "You're dreaming"
8. "You can't trust anyone"
9. "Obey"
10. "Don't make waves"

That night his Central Nervous System (left Supraspinatus muscle) was out of balance.

The next morning he felt awful again. His cloacals were out of balance again. I got that it was the same 'abduction' in restimulation, so this time I got him to do Emotional Stress Release on being taken. After this, his cloacals stayed in balance, and he got back to feeling "heaps better".

## **Session 74: More Wernicke's Commands**

22<sup>nd</sup> July 2000

Michael was feeling very grumpy and not well. His cloacals were out of balance. Muscle testing indicated the cause was emotional. Muscle testing further indicated the cause was another 10 wernicke's commands, the same as in the previous session (12 July 2000), but this time with eyes SHUT. They were again,

1. "Forget this"
2. "This didn't happen"
3. "Go back to sleep"
4. "Don't remember this"
5. "It's just a dream"
6. "Aliens don't exist"
7. "You're dreaming"
8. "You can't trust anyone"
9. "Obey"
10. "Don't make waves"

## **Session 75: Drugs in the Etheric Body**

23<sup>rd</sup> July 2000

Summary: We did a clearing session on the 'abduction' of 11<sup>th</sup> July.

Once again, Michael had been very 'touchy' and quick to respond to anger for a day. I felt that we had to do a session on the night before which he woke up with a swollen nose (11<sup>th</sup> July).

In the session we found that people at Pine Gap were interfering with the session. Michael sent back what they were sending him "one million times as strong". After the session he finally agreed to what I had been asking him to do – to send it back to them at only an 8/10 intensity level, in an effort to end the war!.

A reptilian turned up as evidenced by a rock slam which went away once the reptilian went away.

An important discovery: We found that Michael had drugs in this etheric body, in addition to the ones which we had got out of his normal body. The etheric body is the first layer of the aura, and is the same shape as the body.

We stopped here and used kinesiology to balance out three drugs from his etheric body.

Barbara Brennan gives much information on the etheric body in "Hands of Light<sup>xi</sup>". She says that our aura is composed of at least seven layers. The first layer is the "etheric body". She says of the etheric body:

"It has the same structure as the physical body including all the anatomical parts and all the organs.

The etheric body consists of a definite structure of lines of force, or energy matrix, upon which the physical matter of the body tissues is shaped and anchored. The physical tissues exist as such only because of the vital field behind them; that is, the field is prior to, not a result of, the physical body.

This relationship has been supported in the observations of plant growth by Dr John Pierrakos and myself. Through the use of High Sense Perception, we observed that an energy field matrix in the shape of a leaf is projected by the plant prior to the growth of a leaf, and then the leaf grows into that already existing form."

	4.6	
	4.7	

Since the tone arm was going up, I decided to end the session here, because I felt it was likely that his body needed a rest to get rid of the drugs.

After this session, Michael was his usual happy self again. He continued to feel good until the following day until about mid day, when he started to go down hill. This time I suggested that he hit back with just an 8/10 level, not one million times as strong as he usually does. He agreed to this.

The reason for this is that I felt that he was keeping a war going by hitting harder each time than he got back. Hitting back with more than you receive causes escalation. Also, what you give out you get back.

However, one does not want to take bad stuff lying down. The answer is to hit back with an 8/10 level. This way you keep the intensity levels low, but you also are giving notice to your opponents that you won't stand for their treatment of you. (This applies to normal day to day personal relationships as well).

Note: Before this session I had felt fear. I am pretty good at picking up emotions from other people, without meaning to. I couldn't tell where the fear was coming from. After I balanced the drugs on Michael, I got that maybe the fear came from the guys at Pine Gap, because they were afraid of getting into trouble if they couldn't control us. With this realisation, the fear left me.

Unfortunately, I missed this fact and kept on going. The result was that we had an "over run". That is, from here on he was trying to look at things that were no longer there because they had been cleared. This was shown by the fact that from here on TA went straight up WITH NO READS. I finally realised my mistake and rehabilitated the floating needle that I should have got here. Having a floating needle feels wonderful (we should all feel like that all the time). But being "over run" is horrible. I have had it done to me and therefore I know how 'heavy' and truly awful it feels.

## **Chapter 77: Weird things happen to Computer**

26<sup>th</sup> July 2000

Today we noticed that weird things were happening with the computers. The short cut for windows explorer in the start menu was gone. We both noticed this independently without discussing it with each other. It was there yesterday.

Normally, we clicked on 'start', and then 'programs' and Windows Explorer was there.

But today we had to click on 'program', 'microsoft' and then we found Windows Explorer.

That is, the short cut got moved from one directory to another.

In addition, it was around here that we realised that the two boxes labelled "Michael's files" were missing (as described in the preface).

## **Session 78: Break Soul Ties**

29<sup>th</sup> July 2000

We tried to do a clearing session but the tone arm was too high.

We were both feeling a bit down all day, but were too drained to do a session.

Michael prayed off whatever was affecting him. He felt it was to do with Pine Gap. Nothing responded until he asked to break soul ties to "things he didn't know about or have a name for". Then he coughed a LOT.

He felt lighter afterwards.

## **Session 79: Terminations #4 through #10**

30<sup>th</sup> July 2000

Summary: We looked at more of the terminations of people etc. that Michael carried out on Mars.

Note that in this session there are not a lot of reads (falls). This is because in this case we are looking at things that Michael did to others, not things that were done to him. Therefore, there was a lot less charge on it. In fact, his tone arms comes down and he ends up feeling very good.

This session was necessary, not to remove charge but to improve his life. We get what we give out. Although Michael felt good when he did these things to these people, that energy can come back and affect him later. By getting him to thoroughly view what he did, and repent of it, it can stop bad things from happening in his life.

## **Session 80: Balancing the Etheric Body with Kinesiology**

31<sup>st</sup> July 2000 am

Previously, on 29<sup>th</sup> July, Michael would get grumpy. Then I would balance out drugs which came from the etheric body. They kept coming back daily. Each time after I balanced his body for the drugs which were coming from his etheric body, he would become much calmer and happier.

Then today, 31<sup>st</sup> July, we both woke up feeling tired and full of dread and foreboding. It appeared that Michael was taken again. I realised that I had to balance drugs out again, which were coming in from his etheric body.

Then I got a brain wave. It was not that Michael had been taken again. What was knocking us both around was that Michael's ETHERIC body was full of drugs and out of balance, from what happened in the previous abduction.

All I had to do to fix this up permanently was to balance the drugs out from this ETHERIC body, not from his normal body as I had been doing. Plus I also had to check to see if his etheric body was out of balance, from what had been done to it.

Using muscle testing, I got his body to surrogate for his etheric body. Sure enough, his etheric body was switched, dehydrated (presumably from the drugs which were put there unnaturally), and the cloacals were out of balance, both with eyes open and eyes shut.

I then balanced out drugs from his etheric body, and gave him two vitamin C tablets for nutritional support.

I then got his body to stop being surrogate for this etheric body.

After this balance, Michael was smiling!!! And I felt improved as well. Although we were both tired – we had to wait for Michael's etheric body to finish its healing process.

## **Session 81: Reptilian Wernicke's Commands in Etheric Body**

31st July 2000 pm

I was feeling yucky all day. I figured I was under attack for the etheric correction I had done on Michael. This discovery and correction may be more important than I realised.

I tested Michael's etheric body, because I got that there are some wernicke's commands which are not in the body.

None presented themselves to be removed, because Michael was feeling so good – Until I asked him for wernicke's commands to make him obey.

We got that there were ten (again). All were from a "reptilian scientist"

1. "You will obey"
2. "Obey ASAP"
3. "Do as you're told"
4. "Do as we tell you"
5. "You are ours"
6. "We own you"
7. "Serve us"
8. "Give yourself to us"
9. "Surrender to me"
10. "We are your master"

Michael got that they hook into a human doctor, and stay invisible. The reptilian works on the etheric body while the human works on the physical, without any knowledge of the reptilian. At present, this would normally be easy for the reptilians to do, since most people's awareness is so low.

As we removed these commands, the wernicke's area on his head felt hotter and hotter.

## **Session 82: More Wernicke's Comands**

3<sup>rd</sup> August 2000

Michael didn't feel well.

His etheric cloacals were out of balance. Muscle testing indicated the cause was the emotion "hostility" from reptilians. Since they kept attacking after this, I told Michael to send it back to them at an 8/10 level.

Because Michael had been having some trouble with work, we looked to see if there were any wernicke's commands affecting him. We got that there were ten, but this time they were 'normal' type commands:

1. "You can't figure" (teacher)
2. "You can't reason" (teacher)
3. "You'll never figure that one out" (school kids)
4. "That's too tough for you" (mother)
5. "You haven't got a snowball's chance in hell" (father)
6. "You never could concentrate" (teacher)
7. "Your head hurts" (father)
8. "You won't make a good programmer" (teacher)
9. "You haven't got what it takes" (father)
10. "Blockhead" (kids)

## **Session 83: Attacks on the Etheric Body**

3<sup>rd</sup> August 2000

Michael had been feeling fantastically light and happy since we fixed his etheric body.

This morning, however, he felt very bad, as though he had been taken.

The following were out of balance with his eyes open:

- Cloacals
- Gall Bladder (Anterior Deltoid muscles)
- Stomach (Pectoralis Major Clavicular muscles)

Muscle testing indicated the cause of his cloacals being out of balance was, again, “hostility” from reptilians. It appeared that his etheric body had been interfered with.

I then tested him with his eyes shut. Again, his cloacals were out of balance. His etheric cloacals were also out of balance.

It appeared that some wernicke’s commands had been put back in to his etheric body, namely:

- “You will obey”
- “Obey quickly”
- “We own you”

I got that they visited Michael in the night. When I muscle tested him, it appeared there was something else, to do with circuitry.

I did a “circuit locate” on him. That is, I felt all over his body with one hand while muscle testing his arm with my other hand, to see if his arm would go weak when I touched a certain area. Sure enough, once I touched his heart area, his arm tested weak. I ‘got’ that there was some kind of metaphysical circuitry there, and unscrewed it.

He then coughed when I did this.

I also got that there was something that I had to remove from the back of his neck, and 2 inches from the back of his neck. These were also removed.

That night Michael checked my etheric body, as I had felt all day that something was amiss. My etheric Central Nervous System was out of balance.

## **Session 84: Another Abduction**

Morning, 5 August 2000

The previous night we both found that we woke up and were WIDE awake around 3.30 am, which had never happened before.

Michael was very cranky in the morning (which was unusual).

I gave him a balance. He was switched, and his cloacals were out of balance. Muscle testing indicated that the cause was “fear of loss”. Further muscle testing indicated it was “fear of loss of his life”.

His cloacals were also out of balance with his eyes closed. Muscle testing indicated the cause of this was the emotion “no choice.

Muscle testing indicated that he had been taken during the night. We both woke up after he was returned – the first time that had ever happened. Perhaps our bodies were beginning to handle this stuff.

Muscle testing indicated that there were three drugs that needed balancing out, with both eyes open and eyes closed.

In addition, I tested his etheric body. His etheric Gall Bladder was out of balance. His etheric cloacals were out of balance with both eyes closed and eyes open.

More work! There were three drugs that needed balancing out of his etheric body, with both eyes open and eyes shut. No wonder he was cranky!!! He was greatly improved after all this work.

## **Session 87: Vanishing Scars**

7<sup>th</sup> August 2000

Michael was complaining of headaches etc.

At his request, I checked the energy around the scar on this third eye. When I touched there, his arm tested weak, indicating the energy there was out of balance.

His third eye chakra was also out of balance.

However, the body told me there was another scar somewhere which needed correcting. Muscle testing indicated the scar was not on the head, nor on the legs. I tracked it down to the middle of his body, and then to his arms, and then to his left arm.

Once I did this we saw what we had not seen before – He had two big scars on his arm. About 6” long, ¼” wide, and perfectly straight. They looked like something from an operation. These scars tested weak. I rebalanced the energy around them.

Within a day these scars were no longer visible.

## **Session 88: More Wernicke's Commands**

13<sup>th</sup> August 2000

Michael had been feeling tired and worn out, even after a ten hour sleep. His face was also puffy.

Muscle testing indicated that his cloacals were out of balance. The cause of this was ten wernicke's commands which were removed:

1. "Don't remember"
2. "This is all a dream"
3. "Go back to sleep"
4. "There are no aliens"
5. "Forget"
6. "None of this happened"
7. "This isn't real"
8. "You work for us"
9. "Tell no one"
10. "You can't remember"

His cloacals were also out of balance with eyes closed.

I also tested for drugs. I had to balance out one drug with his eyes open, and two drugs with his eyes closed.

I also tested his etheric body. With eyes closed his etheric cloacals were out of balance.

With his eyes closed I also had to balance out one drug from his etheric body.

Immediately after all this, Michael looked and felt bright, energetic and completely different to how he was before the balances.

## **Session 89: Testosterone Levels: Medical Results**

24th August 2000

Michael felt that his sex drive was lower than it should be, and therefore decided to have his testosterone levels tested. He ordered a saliva test, completed it and sent it off for analysis.

The results were interesting. The testing company contacted Michael and advised that the first sample must have been damaged and asked him to send a second sample.

When we finally got a successful test done the results were incredible!!! We were able to see why they thought the results of the first sample were damaged – **he had testosterone levels less than a 90+ year old man!!!** Even though Michael looks quite young for his 45 years.

His results were around 24 pg/ml. As you will see from the sheet of standards, a man OVER EIGHTY YEARS OLD should have 26 – 54 pg/ml!!!!

The results are on the next pages:

I decided to see what I could do to raise his testosterone levels with kinesiology.

Amazing, muscle testing indicated that his level of testosterone production was only 5%!!!

Muscle testing further indicated that the cause of this was spiritual or metaphysical, not due to 'hardware' (physical) problems, or because anything had been removed from his body.

His testicles were out of balance. When I rebalanced them, the level of testosterone production was raised to 22%

I then found ten wernicke's commands which were inhibiting testosterone production:

1. "You have low testosterone"
2. "Testosterone levels are low"
3. "Keep testosterone levels down"
4. "Stop 95% testosterone production"
5. "Testosterone production is 5% efficient"
6. "Maintain testosterone levels at 5% production"
7. "Reduce testosterone levels to 5%"
8. "Your male hormone levels are at 5% efficiency"
9. "Stop 95% production of male hormones"
10. "Maintain male hormone levels at 5%"

Once these were removed, his level of testosterone production was at 100% efficiency. Muscle testing indicated it would take three months before his testosterone levels got to optimum levels.

As it turned out, we did not get Michael's sex hormones tested for one and a half years. When we finally did test them again, the results were equally amazing – but this time to the good!

After kinesiology and time had gone past for healing, results were as follows:

**TESTOSTERONE:** 74.0 pg/ml. This put him in the midrange of a 20-29 year old.

**DHEA:** Interestingly, we also measured DHEA, the 'youth hormone'. It measured 483 pg/ml. This is off the scale!!! He has more DHEA than a 20 year old!!!! At 47 years old!!!

We conclude from this that the military programmed Michael's hormones:

- 1) To reduce his sex drive, to conserve sperm for later harvest and maybe to preserve life energy
- 2) To keep him as young as possible to extend his life for their own uses.

Incidentally, Michael's sex drive returned to normal with the increase in testosterone.

## **Session 90: Multiple Layers of Wernicke's Commands**

27<sup>th</sup> August 2000

Summary: Firstly, we found that certain of Michael's glands that related to psychic ability were not operating at 100% efficiency. The session that followed this was unlike any other. We found that they had started getting serious about stopping Michael from regaining his memories. We found that on the night of 12<sup>th</sup> August he was given TWO layers of ten wernicke's commands and drugs, to stop him remembering.

I had a realisation that in doing a kinesiology balance there are certain glands and organs which are not looked at.

Michael tested me and I found that my pancreas was operating at 60% efficiency. This was increased to 100% with a balance. After this I felt a lot less hungry.

I then tested Michael. Muscle testing indicated that his Pineal gland was operating at 47% efficiency, and his Pituitary was operating at 52% efficiency. These were increased to 100% with a balance.

A few hours later we did a session on the meter to look further at the 'abduction' of the night of 12<sup>th</sup> August.

## **Session 91: Radionic Drugs**

<sup>11</sup> Radionics (Definition 1): Radionics is the utilization of an unusual energy or energies in devices to produce natural phenomenon or effects. J.G. Gallimore

Radionics (Definition 2): System of alternative medicine developed by Dr. Albert Abrams, who believed that diseased body tissue affected the nervous system and gave forth, 'dull emanations'. Abrams believed electronic phenomena were involved with this, and he invented a variable resistance instrument called a 'black box' to measure the ohm resistance of different diseases on an electronic circuit. He found for example, that cancer produced a 50 ohm resistance, while syphilis had a 55 ohm resistance. Abrams later modified his technique so he could take readings from a drop of blood. In 1924, a committee established by the Royal Society of Medicine investigated. Abrams techniques and were favourably impressed. Today Radionics and its cousin Radiesthesia (medical dowsing) are recognized in Europe as legitimate medical procedures.

There are two reasons 'why' the USA has made 'laws' against Radionics.

1. It works, but not in a way totally understood, either by the academic community or by the practitioners themselves.
2. It works and produces miracle cures in man, plants, animals, and outdates existing sciences if it is understood. Therefore, the 'lobbies' in Washington representing the commercial applications of existing sciences force laws against Radionics to preserve existing sciences and the large sums of money invested in them to create our present technology and preserve the jobs of millions which might be lost if indeed Radionics was used to achieve the same results.

Note: Radionics can be used to transmit positive, healing and also negative, destructive energies.

Michael silently prayed to:

1. Break off all transmissions of drugs to him by:  
microwave  
radio frequency (RF)  
scalar wave  
radionic  
psychotronic  
disease signals  
death signals  
very low frequency (VLF)  
extremely low frequency (ELF)
2. Break all curses and spells put on him by drugs.
3. Bind and cast out all demons that came into him by the drugs.

Each time he did these things, he coughed and spluttered.

I then gave him a balance, where we had to balance out two implants from his etheric body that we were led to by muscle testing.

We then returned to the meter

## **Session 92: Alien Abduction**

1<sup>st</sup> September 2000

During the night Michael woke at 4.30 am and couldn't get back to sleep, which was VERY unusual for him.

In the morning we saw that he had a strange mulberry coloured vertical scar ½" long over his trachea. Surrounding this area for about 3" was an area of inflamed skin.

He felt a bit tired and weird. He felt as though he'd been taken again, although the effects were no where near as bad as usual.

When I touched the mulberry area, his arm tested weak, indicating that there was a weakness here (which is usual for scars). I fixed this weak energy.

His cloacals were out of balance. Muscle testing indicated that the cause was drugs.

His Thymus was out of balance, although not from last night. This was rebalanced.

Luckily, he appeared not to have been given any wernicke's commands. It was all done just with deep sleep.

Michael's weird feeling went after the balance.

I myself had been totally exhausted all day, which was extremely unusual for me.

When Michael tested me my cloacals were out of balance. Muscle testing indicated that the cause of this was the emotion "trapped".

When Michael did Emotional Stress Release on me I saw pictures of Greys and then Reptilians.

We both got that we had been taken, but had not been greatly interfered with. They were just checking us out.

## **Session 96: Praying Against Hypnotism**

16<sup>th</sup> September 2000

When we went to bed I finally decided to pray so that:

1. They stop taking Michael
2. He is immune to their commands, if they turn up

Ten minutes later I got the thought to tell him to pray to end anything to do with hypnotism.

He then prayed to break off hypnotic commands, and reacted fairly strongly with coughs, deep breaths etc.

Then I had a realisation. I said to Michael that I really meant that he pray to make it so he can never be hypnotised again. It was interesting that he hadn't thought of this himself (presumably the mind control stopped him from thinking of this). When he did this he REALLY reacted, with violent coughing etc.

### **Comment from Michael:**

I felt a foreboding feeling, like they were coming soon.

- I asked God for angelic protection around the house, around Stephanie and around me.
- I broke curses (in Jesus name)
- I broke attacks
- I broke soul ties.
- I broke all connections to and from me to the implants
- I broke all connections from the implants to their owners
- I specifically attacked demons and demonic rule of hypnotism, hypnotic commands, post-hypnotic commands and the ability to be hypnotised.

The implant in the upper right quadrant of my head was hurting all night. I had weird dreams and unsettled sleep.

## **Session 97: High Temperature**

17<sup>th</sup> September 2000

Michael woke up feeling terrible. He had a headache, a stuffy head and his joints ached. He felt like he had “run fifty miles”.

He felt that he had been taken last night. (Prayers are not always answered immediately). In fact, before he went to bed he felt as though he knew they were coming.

I gave him a balance. Sure enough, his cloacals were out of balance (indicating major stress). Muscle testing indicated that they were caused by something emotional, and then that they were caused by ten wernicke's commands:

1. “Don't remember”
2. “You'll never remember this”
3. “Go back to sleep”
4. “You can't remember”
5. “Forget this”
6. “Always forget”
7. “You have no memory”
8. “You cannot recall”
9. “Memory is forbidden”
10. “Don't do clearing”

He also had out of balance:

- Stomach (left Pectoralis Major Clavicular muscle)
- Kidney (Left Psoas muscle)
- Lung (Left Anterior Serratus muscle).

With his eyes shut, his cloacals were out of balance again.

I also balanced out four drugs, and something that acted like a drug, but wasn't a drug.

After all this Michael felt and looked a lot better. Unfortunately, it wasn't over so easily this time.

His etheric cloacals were out of balance with eyes open.

A neck muscle was out of balance (Right Rectus Capitus Posterior Major).

His Pituitary was operating at 67% efficiency.

The energy of the scar on his forehead which is where his “frown mark” is was out of balance.

Michael then tested me. I was blocked and switched, but there was nothing majorly out of balance.

Michael then slept all day to recover. He seemed to have a temperature. When he woke up at 4pm in the afternoon, he looked terrible again. Plus he had a 9/10 headache.

I gave him another balance.

I had to balance a drug out of his etheric body.

Then I got that his etheric body was dehydrated from all the drugs that had been put into it. He drank water while his body was surrogating for his etheric body, to help wash out the drugs from this etheric body.

After this, the pain in his head reduced to “not near as bad” (6/10).

When I felt his forehead, it felt very hot. This was the first time ever that he did not “snap back” after being taken and after a balance. This was Sunday. He stayed in bed the next several days.

On Monday I rang a friend who is a sensitive to see if she could pick up anything about Michael that might help. She said that Michael had an “Arch Demon<sup>12</sup>” in his chest (That is, the equivalent level of the Arch Angels), although she doesn’t know much about the different rankings of demons and probably overstated the case – but she did see a big demon.

On Tuesday I finally went and bought a thermometer and took his temperature. He was 102°F!

It took Michael five days to get over this sickness. This was definitely not your ordinary “cold”. Michael went to sleep feeling perfectly fine, and woke up with many abduction symptoms – much more than normal.

I myself “caught” whatever was upsetting Michael a few days later, though no where near as bad as he. I was totally exhausted and unable to function and with a high temperature of 100°F for three days.

---

<sup>12</sup> The angelic realm (whether good angels or fallen angels) have definite hierarchies and rankings within them. The bible names these as “powers, principalities, dominions, world rulers, thrones and kingdoms”. Below these are many other rankings.

We felt, and kinesiology indicated, that Michael had been given some kind of inoculation to protect him from goodness-knows-what in the future. Thoughts of the chemtrails<sup>13</sup> came to mind.

---

<sup>13</sup> Definition of a contrail: A contrail occurs when a plane travels at a high altitude (about 30,000 ft. or more) and compresses the air into a water vapor or ice crystals through jet engines or the wing tips pushing through the air. This trail disappears after a minute or so due to evaporation, because it's water.

Definition of a chemtrail: The term "chemtrail" is a relatively new word, which appeared in the last few years along with the appearance of chemtrails.

A chemtrail is very different from a contrail. At first a chemtrail might look a bit like a contrail. However, instead of disappearing like a contrail does, a chemtrail just keeps spreading out and forming a hazy cloud bank. These trails traverse the whole sky and stay for up to around five or even eight hours. They have been known to turn what was originally a clear blue sky into a grey haze. (Note: As of Nov 2001 there are already at least several dozen cloudbusters in seven countries, so if you see chemtrails that don't last anywhere near this long, there may already be a cloudbuster in the area).

It is believed chemtrails are composed at least in part by an oil based substance of unknown content that is actually being sprayed from jets on populated areas. It has also been found that some chemtrails contain unknown biological components. There are many reports of increased diseases, especially lung diseases, in areas where there are chemtrails.

Chemtrails are often seen to be sprayed by white planes with no markings. Sometimes you will see these planes give off no contrail at all, and immediately after the same kind of plane in the same area will start to leave a thick chemtrail. At other times, distinct short gaps in chemtrails have been photographed, as though the plane ran out of chemicals and then had to start spraying with a new supply (as in the photo).

## Session 98: Inoculation

23<sup>rd</sup> September 2000

Summary: We discover that Michael was in fact taken on Saturday night the 16<sup>th</sup> September. He was given an 'inoculation' by an 'energy plate' put on his chest. He was then exposed to whatever he was inoculated against, to confirm that the inoculation held. That was why he was sick for five days with a high temperature.

Note: Michael was in balance five minutes before we started this session.

## **Session 99: Radionic Attack**

am, 15<sup>th</sup> October 2000

Michael woke feeling great. He was working on his computer when suddenly he felt sharp pains in his chest.

He broke off in Jesus name “attack of scalar attack, radionics, psychotronics”. When he did this he really reacted, coughed a lot etc. He then felt improved but still awful.

I then gave him a balance. His cloacals were now out of balance. Muscle testing indicated the cause was an emotion. Further testing to identify which emotion from a long list gave us the emotion “attacked”. Muscle testing indicated this was by the military (another group from the ones who usually took him).

Michael got that he had been attacked by a Remote Viewer guy, who did what Michael used to do to people (that is, kill them by giving them a heart attack). Michael got that he had been protected by Jesus, not by his abilities.

I mentioned in Book One that Michael had experienced divine aid before concerning protection when driving. I feel that here is a good spot to tell the story.

**MICHAEL FILL THIS IN**

## **Session 100: YOU can stop Abductions!**

pm, 15<sup>th</sup> October 2000 (plus notes from 27<sup>th</sup> October)

Michael thought that they might come to get him the next night.

He had been praying hard for an answer to the ongoing abductions for quite a while. Since becoming so ill from the inoculation he was especially earnest in seeking God's help for what was going on.

Michael described it as follows –

“It was like a realization or finding something that had been lost. I was praying and asking God for an answer on how to stop the abductions. I remembered the passages in the old testament on how the Lord would fight for his people if they asked him and how He would give the enemy into their hands. I “got” that the enemy jump gate technology was “damaging” to the space-time continuum and that the continuum could be healed. I couldn't imagine healing ALL space time just as I couldn't imagine healing ALL the people in the world. But I *knew* that it could be done locally. So I did the following –

1. I asked God to send angelic protection for the house that we were living in and to seal it off from the attacks of the enemy.

“Heavenly Father, in the name of The Lord Jesus Christ, I ask you in Jesus name to please send hundreds, hundreds, hundreds and hundreds of millions of legions of angels to surround and encamp around this house and set up angelic shields, protective devices, impenetrable force fields and angels to seal this house off from the world.

In Jesus name Father I ask you to send angels to bind up all the free demons trapped inside this house when the shield is closed and to send them to where you want them to go, in Jesus name.

In Jesus name Father I ask you to break, destroy, cut, dissolve, and sever every line of remote viewing, energy drain, energy supply, remote influence, command and control and surveillance that the enemy would try to put through this shield. In Jesus name, Father I ask you to make this shield impregnable to all the attacks of the enemy”.

2. Then I put my hands in the air, like I was laying hands on “space” for healing.

“Heavenly Father, in the name of The Lord Jesus Christ, I ask you, in Jesus name, to change the space time continuum in this sealed off house, so that the enemy’s jump gate technology will not function in this sealed off house. In Jesus name I pray, Amen.”

---

After this, Michael was not taken again until April 2001 – a break of six months. That was a big improvement on being taken once a month.

It appears as though the first space-time travel research was done during the Philadelphia Experiment and the Montauk Project. Preston Nichols in the book ‘The Montauk Project’ explained how the original project HAD to have a psychic make the initial link-up. The psychic used to lie in a special chair. It was only after using a psychic for a long period of time that they were eventually able to make space-time changes with machines alone. Therefore, the spiritual aspect to this cannot be underestimated. We feel that this gives a sound basis for the subsequent success of Michael’s prayers.

Twelve days later, on the 27<sup>th</sup> October 2000, we both felt like we were under some kind of attack. Muscle testing indicated that it came from the greys. Michael felt that he had been continually attacked by reptilians for the previous ten days.

I felt that the night of the 27<sup>th</sup> October the greys were mad at not getting their ‘quota’. And that they are beginning to realise that Michael was doing this on purpose. I felt that they were draining energy off Michael to stop him doing this. He prayed to end all these attacks, which cleared them up.

---

March 2002: Much has happened since October 2000. For a more complete and detailed explanation on stopping abduction, please see the Appendix.

## **Session 101: Female Reptilians are Mean!**

November 6 2000

Shortly after arriving home from work, Michael felt 'not good', really tired and super lethargic. He had eaten nothing unusual that day.

I gave him a balance. His cloacals were out of balance again! What next?! What super stress had caused this, this time?

Muscle testing indicated the cause was 'chemical', but wasn't food. Further testing indicated it had to do with something between work and home, something on the train home.

Michael then remembered a woman he had seen on the train. She was in her late 20's/early 30's, blonde and looked tall but it was hard to tell as she was sitting down. What was extraordinary about this woman was her EXTRAORDINARILY long and strong legs. She was wearing a dress so they were easy to see. Her knees alone were twice as thick as Michael's (and he is a medium-well built six foot tall).

When Michael saw her, his first thought was that that would be what a female reptilian would look like. He had to check to make sure she was a woman. She had a small-medium chest, average face, but no Adam's apple.

He got that he got 'zapped' by her.

Perhaps the strangest thing was that he didn't see her leave. When he next looked at her seat, she was gone and a little old lady was sitting in her seat. Michael got that she fuzzed his mind when she left.

I got that the bad guys were still trying to find ways to weaken Michael, to stop him from preventing them from taking him at night.

After the balance Michael felt "fine", less tired and a lot better than before.

## Session 102: Operation at 12 Years Old to Increase Abilities

January 7 2001

On a number of previous days we had experienced either psychic attack or an energy drain from Michael, in an effort to stop him from stopping the jumpgate from working, even though we felt that it took them a while to realise that Michael had anything to do consciously with the inability of the jumpgate to operate.

I had been quite tired for several days. Today I woke with a headache, which was very unusual for me. I got on the meter and saw that my TA was high – 5.3. I then got Michael to pull invisible circuitry off me, including:

1. An energy drain from my back
2. Wiring from my third eye
3. Wiring from my right ear, which went into the back brain.

He did this while I was still holding the cans of the meter. While he did this, I got lots of reads, plus I did lots of burps, coughing and tearing. The TA then came down to 3.5 (a very big drop) and then settled at 4.

After this, my headache was gone! My energy was improved! My smile was restored!

We later did a clearing session on Michael:

## **Session 103: An Attack from Reptilians**

January 7 2001

We had been a bit short with each other – quick to take offence etc. for a day or two, which was unusual.

Stephanie felt that she was under attack. She was in balance, so kinesiology was not called for. Michael did some deliverance on Stephanie. She coughed when Michael got to “radionics” in the prayers.

Stephanie then felt REALLY bad. She got that there were two reptilians in the room. Once this happened, she went out of balance. Muscle testing indicated that there was some kind of energy drain. This was fixed. Stephanie then felt improved but not perfect.

We then felt that Michael needed to clear something. He did deliverance on himself. He did LOTS of coughing when he got to “remote viewing attack” in his prayers.

Stephanie then felt much better. We were both rather tired after this. We stopped being short with each other after this.

## **Session 104: Black Light Markings from Abduction**

April 9 2001

Note: At the end of February 2001 we moved from Australia to the USA.

Michael woke feeling that he'd had a very vivid 'dream'. He dreamed he was on a base and didn't want to be there any more. In the dream he packed up and left – he put things in a trailer and drove off the base.

He felt that he'd been taken, although he looked okay (not like he usually did after being taken), and woke up at a normal time. I felt fine (which I usually didn't after he had been taken).

Muscle testing indicated that he had, in fact, been taken. His cloacals were out of balance. Muscle testing indicated that the cause was the emotions "picked on" and "defeated".

Muscle testing indicated that he had been taken by greys. Michael got that this time, for the first time, they were physically present in the area. They did not use the jump gate technology this time. They used a different type of transporter technology, which was more local (short range). They didn't use the password to get him to go with them – they just beamed him up (as is usual in many alien abduction experiences).

His cloacals were also out of balance with eyes closed.

Muscle testing indicated that he was being affected by two drugs, which were balanced out.

We then checked Michael over with a "Black Light" – an ultraviolet light. We had read that anyone who is abducted should always check themselves over straight afterwards with an ultraviolet light, as often strange markings will appear. Well, we sure got a shock. At first I was about to give up looking for markings on Michael as I couldn't see anything unusual. And then he remembered to check the scars on his groin. It was amazing! His scars were now a bright fluorescent pink on the outside, and fluorescent purple on the inside. Plus there was a more "solid" looking substance on the inside – flecks of something that glowed like the colour of bright pink lipstick in some areas, and bright apricot in other areas.

The coloured areas were 3.75" x 1.25" on the right side, and 2.5" x 1.25" on the left side, which was fainter. They followed the lines of his scars.

After Michael showered, much of the colour went. The solid flecks went, and much of the fluorescent colour went also, although not all.

Michael was surprised at how good he looked and felt after his abduction. We thought that possibly they had changed the technology to lessen the after-effects, to make it harder to detect, or that maybe the transporter technology had less side effects than the jumpgate technology.

It has been shown that the general modus-operandi has changed in normal abductions. Early on, people who reported being abducted reported a lot of fear. But people who are abducted these days often report that they are 'happy' to be abducted because it is 'serving a higher purpose'. I wonder if they would be so 'happy' about someone visiting them at night, without permission, and taking them away to operate on them, if that person was a simply a human being? At the very least, it is certainly very rude!

We would like to point out here that we believed that Michael's prayers to change the Space-Time continuum were still effective. The abductors did not use the jump gate technology – they had to be physically in the area (in a nearby ship). At the time we were staying in a rural area, with lots of forest land and very few houses.

The effects of this abduction were removed in a clearing session. I have not included the notes for this session, as it was much like the other abduction experiences he had had before.

P.S. We would have liked to have photographed the fluorescent light markings, but we found out that a lens that could achieve this was several thousand dollars and outside our budget.

## **Session 105: Abduction of April 21 2001**

April 22 2001

Michael woke feeling that he'd been taken again, which was unusual as it was only 2 weeks since his last abduction. It was possible that they were behind in their 'quota', since it had previously been six months since they had got to him. I also woke with a very heavy feeling.

Michael's cloacals were out of balance. Muscle testing indicated that the cause was, in fact, that he had been abducted again.

We used the ultra-violet light again. Michael had some of the colour back on the scars on his groin. There was not as much colour as last time, but there was a definite fluorescent apricot colour on both sides of his groin.

Muscle testing indicated that he had been away for two days. (In an earlier session he learned that they have the ability to expand time in a localised area).

We had been trying for several months to have a child. I had felt that I had become pregnant a week before. Today I felt that the aliens had taken the embryo. This was hard to verify with muscle testing, as there was too much emotion attached to the significance of the answer.

I felt that this had happened to me before. I remembered that I knew of many people who were finding it hard to have children. I had a realisation that it was possible that these women really WERE getting pregnant, but either aliens or people were taking the embryos or fetuses, before the women knew they were pregnant, or later on when the women would think that they miscarried.

When we looked at Stephanie's body with an ultra-violet light it was very strange. There was a fluorescent creamy-yellow colour on her hands – the colour of a post-it note. It looked as though her hands had been dipped into a liquid, as there was a distinct straight demarcation line along her fingers. There were also smudges of yellow on her hands. There were also solid flecks of colour on her hands, and also in her navel. The yellow on her hands came off with a shower. We later found some dried liquid soap that also glowed with this colour, but that didn't explain the unusual markings on her hands.

On this day the computer kept crashing. As it was located in our bedroom at the time, I suggested that it was crashing because there was residual energy from the abduction affecting it. The next day the computer was fine.

## **Session 106: Wernicke's Commands from April 21 Abduction**

April 23 2001

Using kinesiology, we found and removed the following wernicke's commands from the right wernicke's area of Michael's brain, which he had been given during the abduction on April 21:

1. "Forget this happened"
2. "You're not here"
3. "Go back to sleep"
4. "You were never here"
5. "Memory is shut off"
6. "Forget clearing"
7. "Don't remember this"
8. "Forget us"
9. "You have no memory of this"
10. "Stay asleep"

We then switched over, so that Michael was doing kinesiology on me. The following wernicke's commands were removed from my (Stephanie) right wernicke's area of the brain. These commands were given during the April 21 abduction:

1. "Don't remember"
2. "Forget this"
3. "Stay away from Michael"
4. "Leave Michael" (I had been feeling a little negative towards Michael since that day)
5. "This didn't happen"
6. "There was no baby" (this seem to confirm that I really WAS pregnant)

7. "Tell no one"
8. "Aliens are our friends"
9. "Your memory is gone"
10. "We are your friends"

## Session 107: Invasion Earth

April 28 2001

We did a clearing session for the abduction of April 21.

Michael made a very important discovery after this session. He realised that he had been praying against the jumpgate ONLY. **He realised that they were now using other technology that he also had to pray against.**

However, I was quite relieved to see that the 'bugs' in "Space-Above &amp; Beyond" are humanoid. I guess the military just HAD to find a new 'enemy' to fight – but made sure it was one we could defeat – We have never made even one species of insect extinct. But humanoids with a few insect features are more our match.</p> <p>By the way, this information corresponds with information given out by Al Bielek of The Philadelphia Experiment. They wouldn't want the greys and reptilians to invade us – since they are working with the military. In fact, an invasion of the chiggs would give the greys and reptilians a chance to 'save' us – they could come out in the open and rule us openly in return for 'saving' us.</p>

### **NOTE TO PEOPLE IN THE MILITARY AND IN POWER:**

As you know, thought creates reality. Instead of suppressing the people of earth, why not harness the ability of six billion people to protect earth?

Instead of dumbing people down, how about helping to raise people who can think and work together spiritually and metaphysically with synergy?

We could be the strongest planet in the universe if only all the psychic ability of the people is aligned and harnessed for good.

## **Session 108: Not relevant to this book**

## **Session 109: Hired Occultists**

June 7 2001

I dragged myself around all day, feeling incredibly low in energy. I thought it was the pregnancy until Michael said that he felt the same. Later on in the day the word "spell" came suddenly into my mind. (I am not one to think of this kind of thing). I got a picture of several people in a circle.

I asked Michael if he 'got' that there as a spell on us. He said yes. He did deliverance on me. When he did so, I coughed, yawned and burped a lot, and liquid ran down my nose. I had none of these symptoms before he started.

Michael then prayed for himself, and also got some reactions.

After that, we both felt about 60% better.

Michael 'got' that it was people who had been hired. They had no animosity towards us. They were just doing what they were paid to do. This felt true to me also.

## **Appendix I: Interview by [www.surfingtheapocalypse.com](http://www.surfingtheapocalypse.com)**

© [www.surfingtheapocalypse.com](http://www.surfingtheapocalypse.com) 2000

The following is an exclusive interview that [www.surfingtheapocalypse.com](http://www.surfingtheapocalypse.com) conducted with Michael and Stephanie Relfe. Stephanie Relfe is the author of The Mars Records, a chronicle of biofeedback meter sessions where Michael R. regained hidden memories of military service on Mars.

During these sessions which began in 1996, the two discovered that while Michael was in the United States Navy he served for twenty years at a base that was established on the planet Mars.

Through the clearing sessions, a complex set of memories began to surface. Memories that included remote viewing, time travel, age recession of 20 years and on-going intrusive abductions. These memories were found buried beneath the false memories that had been implanted so that Michael would not remember.

The Book The Mars Records is a result of these sessions. It is available online and is free to download at [www.themarsrecords.com](http://www.themarsrecords.com)

Where possible, when certain technologies or people are mentioned in the interview, links to information on those subjects and/or people are provided. It is highly recommended that you follow these links and review the information contained there, as well as search out information on your own.

Surfing the Apocalypse is denoted as **SURFING**, Michael R. as **MICHAEL**, and Stephanie Relfe as **STEPHANIE**.

This interview was conducted via email over a period of several weeks by Theresa de Veto for Surfing The Apocalypse.

The views expressed here are not necessarily the views of Surfing The Apocalypse, the interviewer or any of the affiliated websites.

**SURFING:** In 1996 You began clearing sessions, can you tell me about why you started these sessions and the techniques that were used?

**MICHAEL:** I initially agreed to the clearing sessions because I have always had a question concerning a dream I had as a child. I dreamed of seeing a spaceship outside my house.

**STEPHANIE:** When I first met Michael I thought I might have (finally) met

the man for me. I could tell that he had done some work on himself (which I learned later was called deliverance). We met through a number of coincidences at the Nexus Magazine conference in Sydney. We had a date the first day we met, but it soon became clear to me that this wasn't going to work - he still had too much anger in him, and his ideas on some things were too fixed. However, we remained friends. From my side, in particular because I needed his help to make my web page.

Meanwhile, I continued to pray and work to meet the man of my dreams. About a year later I was on the net when I saw an ad for some information that I KNEW was for me. I sent off my money. I had figured that since the man of my dreams would be telepathic like me; he should be able to pick up my thoughts and find me. But the information told me that there is no use talking telepathically to someone if their 'phone is off the hook' so to speak. They need to be in THEIR alpha levels as well. And when is that? When they are asleep. So I told myself that I would wake when I was in mind-to-mind communication with the man who fitted the list of the man of my dreams. I woke at 3 am and he was THERE spiritually. I told him to get to me as soon as possible. About 3 weeks later I was sitting at a table with Michael. I was thinking - he's got so much going for him - if only I could get rid of whatever that rage is behind his eyes. Suddenly I got the thought to offer him some clearing sessions free of charge. To my surprise (because not everyone wants to look at their 'stuff') he accepted.

**SURFING:** Were the clearing sessions successful in retrieving the memories as well as diffusing the rage?

**MICHAEL:** Concerning the childhood memories, we haven't gone that deep into exploring that area. The internal rage I felt as the result of how I had been treated is mostly gone. Along with that was great physical pain (in my neck and back) that I had felt as a result of the crash of the attack craft. The way clearing works, it is easier to remember things that contain a lot of "charge" on them. That charge is usually associated with pain or traumatic events.

**STEPHANIE:** Michael is a very different person now to how he was when I first met him. Eventually he improved so much that when he asked me to marry him, I accepted. We are now very happy together. And he becomes more of a "people person" every day, when previously he was pretty much a loner.

**SURFING:** Michael, when did you enlist in the U.S. Navy and how long did you serve with them?

**MICHAEL:** I enlisted in the Navy in 1976 for the Nuclear Power Program. That program requires a six-year enlistment.

My time in the Navy was 6 years relative and 26 years absolute. That means 6 years in my "normal" life time line. Then some time after arriving at Great Lakes, Illinois for Electronics Tech School I was recruited to Mars. I stayed there 20 years, at which time I was age regressed and returned to Great Lakes about a week after I had left.

6 Years + 20 Years = 26 Years.

Remember that during the duration of my 6 year enlistment plus the next 14 years, there were two instances of "me", one on Earth and one on Mars. There was no "parallel universe" situation.

**SURFING:** Michael, you state that the time you spent in the Navy was " 6 years relative and 26 years absolute," and that there were "two instances" of you, "one on earth and one on Mars," can you explain what this means and/or how this worked?

**MICHAEL:** In the book, the visual representation of the time line helps clarify the matter. I was living my normal "time line" when I was recruited for the program. I was taken to Mars via jump gate where I served a 20 year tour of duty. During that period I was not allowed contact with any event, any thing or anyone on earth. At the end of the tour of duty I was physically age regressed 20 years and returned to my point of origin. (about a week after I had left). I continued to live my normal "time line"

From the point of an outside observer I lived my normal time line (minus the week I was gone). At the same period I was also living on Mars, totally isolated from earth. The key is ISOLATED. During the time on Mars I was never allowed to interfere with any event on earth. In addition, I eventually had to be returned to earth to live out my normal time line and accomplish my destiny.

**SURFING:** The "jump gate" that you refer to, is this technology that grew out of the [Philadelphia Experiment?](#)

**MICHAEL:** Yes. This is the same technology that [Al Bielek](#) describes in the Montauk Book series, although instead of being in the experimental stages, at the time of my enlistment, this technology was being used in everyday practice.

**SURFING:** Your first clearing sessions were because you remembered seeing "spaceships" as a boy. Can you tell me about these memories, and what you discovered about them in the sessions?

**MICHAEL:** I remembered that one night I was awakened and my parents were not in the house. So I went outside to try and find them and saw all the people of our neighbourhood outside looking up at the sky at a

"rocket". I wanted to know if it was really a dream.

Then I mentioned to Stephanie something about wanting to know if I ever saw "weird" things in the Navy. The meter started to read so Stephanie followed that line of thought. The Mars Records is the result.

**SURFING:** What was your first memory of your service on Mars? How did you both feel about this revelation?

**MICHAEL:** It was during the first session as described in the book. I was in Great Lakes, Illinois, in the Nuclear Power Program. I had completed Electronic Tech School but they supposedly did not have room at Nuclear Power School for me at that time, so I was assigned to be an "Instructor Assistant" at one of the Electronic Schools. My memory from that time seemed "flat", like a cartoon or something. When Stephanie started questioning me about that time, asking if I was doing something else or if I was somewhere else, that is when the meter started reading. The word MARS came into mind and the meter went crazy. She continued with that line of research.

How did I feel about it? I was very surprised and astonished at this realization. I had no idea I was ever involved in anything such as this. You have to understand that I was very emotionally "bound up" at this time. I was "programmed" to be an unemotional loner and did not react emotionally to much of anything. My job was using my Remote Viewing "talent" to kill other beings (human alien and other) in excess of 70 times. Other beings were just "targets". My world was one of fact and logic. I was a very cold person. I once mentioned to Stephanie that I must have been like the Psicorps Officer "Mr. Bester" on the TV show Babylon 5. She said "No, You were like his BOSS !" I have improved quite a bit since then.

**STEPHANIE:** I had a range of emotions and thoughts at the time. However, a clearing session runs successfully only if the clearing practitioner is PRESENT. I was trained to be present, no matter what the client says or does. Once you are in that state of "Here" and "Now", nothing affects you - because our emotions are a result of our past experience and beliefs.

Also, because I had done years of clearing and reading about alternative type things, I had had my reality on many things totally changed many times in the past, so that one more surprise was not as hard to handle had I not been prepared by previous changes to my way of thinking.

However, that aside, I guess I can say that at the back of my mind there was a part of me that felt that the world turned upside down, so to speak, when I asked him "where were you at that time?" and he finally answered "Mars". Some how I just KNEW that his answer was going to be Mars. I

didn't put that thought in his head. It's just that the reality of it was so much in the room (and because I'm pretty telepathic). It took him quite a while to answer - not because he didn't instantly know the answer, just because he was reluctant to tell me. To me, he looked pretty astounded.

After the session, as his answers sunk further into my mind, I became even more astonished. It would have been all right if I had heard of even ONE person having been to Mars (I didn't know at that time that Al Bielek said he had been to Mars), but that I should find the first person to remember this was a pretty big responsibility. It took me a long time to get used to the idea. For quite a while after that I used to try different ways to get Michael to realize that it must have come from a past life or something else, but I finally had to accept that it really happened and in this lifetime.

**SURFING:** What was your life like on Mars? Did you live on the surface or underground? What special life support systems, if any were required?

**MICHAEL:** From my memories in the sessions, I remember that most living was done indoors in a mixture above ground and underground installations. We have not looked at this subject fully.

**SURFING:** What was your "mission" at the Mars base?

**MICHAEL:** My service at Mars Base took place over a 20 year time span. During that time my job specialty changed at least twice. During one time period I was involved with Remote Viewing. During the remote viewing period, there was a time of initial conditioning (drugs to enhance metaphysical "talent" and surgery for the man/machine interface), training and deployment. The missions that I performed at different stages varied from recon (data gathering) to defence to offensive.

Recon - Data Gathering, Covert Spying, etc. Remote Viewing can be shielded against. You have to have control and finesse to be effective against a shield.

Defence - Differing assignments according to the "power" of the talent. Ranges from lightweight, general "monitoring" of a region, to active defence of a region, to active defence of an installation, to active defence of a selected VIP target.

These regions can be on planet or in an area surrounding the planet. Sometimes the defence is "mental". Sometimes you are hooked into offensive and defensive weapons systems.

Offensive - Remote Viewing used as an offensive tactical weapon to terminate selected VIP targets (assassination). Even with the machines, this job requires a "talent" of high "horsepower" and low compassion for

other beings. Most RV people never come close to this level.

These jobs are a progression "upward". I remember being very good against shields. Later after gaining experience I became offensive and proficient at termination. The final count was 70 targets terminated.

**SURFING:** What exactly were you defending on Mars Base, and who were you defending it from?

**MICHAEL:** During my Remote Viewing period, defence was provided for various targets, depending upon the operatives skill and experience. Some of the things defended were regions of space, installations, VIE equipment, weapons platforms and VIP individuals. We have not looked at the identification of the enemy(s)

**SURFING:** You mention "final count 70 targets terminated," who/what were these targets?

**MICHAEL:** These targets were humans, aliens and synthetics (I don't actually know what a synthetic is...it is the name I give to the "thing" that looks human, but is a shell containing an artificial intelligence)

**SURFING:** What is the man-machine interface?

**MICHAEL:** The machine that amplifies your metaphysical abilities. It requires a direct connection to the brain. Candidates undergo surgery to implant an interface device so that the connection can be made.

**SURFING:** Earlier in the interview you mentioned great physical pain in your neck and your back as a result of the "crash of the attack craft." What was the crash of the attack craft?

**MICHAEL:** From what we have been able to piece together, I spent a certain amount of the 20 year Mars duty term in a specialty commonly known as Remote Viewing. I "know" that this is a very stressful type of procedure and that duty rotation is required. I also "know" that I was given a choice of other types of training and I chose flight training.

In one session I recalled flying a single seat attack craft and while being on patrol in a certain area, I discovered a very large ship. It was deep space recon so I was supposed to return after reporting the position of the intruder. I didn't. I was too excited, gung-ho and bored for "action". I went as close as possible and launched my weapons. They launched some type of missile, that when it hit my ship, it did not explode, but penetrated the cockpit. It sent quite a bit of shrapnel into my arm, chest and leg. The suit I was wearing sealed the wounds and pumped me full of drugs that put me in suspension. I was later picked up and sent to the hospital for repair.

**SURFING:** In the Mars Records you mention two specific groups of "aliens," The Greys and The Reptilians. Can you tell me more about these groups and what their connection to the US Military is?

**MICHAEL:** I can recall that they work together with certain groups within the shadow government. The greys seem to be technicians or doctors, always doing something to someone and neutral toward the subject. The reptilians seem ill tempered and we have had more than a few psychic attacks from some of them.

**SURFING:** How have your "monthly visits" (abductions) been? Are they still occurring? Do you believe these will ever stop?

**MICHAEL:** The "visits" continued monthly after the scars appeared. After the Mars Records was published on the net, we moved to another state. As per what usually happened when we moved, they took a while to track us down. Eventually, however, the visits started again. There has been an increase in psychic attack since then and if it were not for the protection of God Almighty, I believe that things could be a lot worse.

**STEPHANIE:** A big reprisal happened on Tuesday 30 May. I woke up in the morning and immediately felt a pain in my right breast. I was VERY surprised to find a large, hard lump about 1.5" wide, on the right hand side behind the nipple. Nothing like this had ever happened before. I am very healthy, and constantly work to improve my health with diet etc.

Muscle testing indicated it wasn't cancerous or a cyst - although I believe it would have developed that way if we hadn't dealt with it. Muscle testing showed it was related to people associated with the Mars Records.

Michael prayed for me (e.g. "In Jesus name I break every curse, spell and psychic prayer put upon Stephanie by any government group, MIB group, witches satanists or masonic group, NWO group, illuminati group, NRO group, NSA group, CIA group, military group, army group, navy group, air force group, marine corps group, Mars Defense Force Group, Mars Program group, reptilian group, draconian group, grey alien group, insect alien group. In the name of the lord Jesus Christ I break every soul tie, communication link, insertion point, communication line, surveillance line, hook, radionics attack, death signal hook and disease signal hook put upon Stephanie by (the names above).

Instantly pain appeared in my breast, (especially when he mentioned radionics - which was added when I got an intuitive flash that it might be related to this) and I did a lot of burping, belching and yawning which confirmed the spirits were radionics (not cancerous at that time).

We also got a good reaction when he prayed away spirits of "breast infection" and "breast inflammation". Also, something was hooked into the breast itself which was associated with the Mars project and military.

After this, the pain went away and the lump was immediately 50% smaller. We continued to pray a few more times, and the lump was totally gone within about 40 hours.

Up until this time the attacks were mostly demonic in nature, with energy being drained, anger thrown in etc. The radionics thing was a new thing. We believe that this may be the mechanism behind the MANY researchers (especially UFO researchers) dying of cancer and heart attack. (I once read an article outlining how many UFO researchers had died, and it was an amazingly long list).

This just goes to show that God's power is more powerful than anything the enemy has.

**SURFING:** At one point in the clearing sessions, you came to realize that "abduction/physical" changes had been made to your father while he served in the U.S. Air Force and that as a result of these changes "they" started "doing things" to you at age 8.

First off, who are "they?" Secondly what type of physical changes were made to you and what was the effect of these changes?

**MICHAEL:** "They" were grey aliens. The changes made to me were genetic. The effects of these changes were to enhance my natural "talent". It must have worked as they have been visiting monthly for the last couple of years to "harvest" tissue from my testicles.

I believe that the genetic changes increased my talent "horsepower" as well as its depth and breadth of control and resolution.

**SURFING:** All during your experiences, you were subjected to the drug Scopolamine. Scopolamine is one of the most insidious drugs known. It has been stated that a person can be "programmed" in five minutes or less using this drug. My understanding is that Scopolamine was originally used on "double agents" so that if the double agent was subjected to torture, truth serum or more Scopolamine the ORIGINAL programmers had to be sure that the double agent would not "crack." Scopolamine was combined with personality fragmentation and hypnosis so that no matter what the interrogators did, if they did not have the original "code words" or "triggers" they could not penetrate the "cover." How were you able to locate and break this programming, and how can you be sure that you have completely "cracked" it?

**MICHAEL:** I give all the credit to GOD Almighty and The Lord Jesus Christ for breaking the power that these people had over me.

The mind control technologies that these "controllers" use are composed of a demonic component, a metaphysical component and a physical component, all in one.

An example is an implant that suppresses metaphysical abilities. A hardware device (physical) that generates signals that interfere with energy processes (metaphysical). Then a demonic entity is "assigned" to protect, maintain and look after the device. If the subject starts to think the wrong thoughts or probe too deeply into certain subjects covered by the demons assignment, it takes measures, within its authority (and what GOD allows) to try to distract and lead the person's thoughts in other directions.

Sometime pain, fear and uncomfortableness is used.

So you can see that it is the power of Jesus Christ and the deliverance he provides that gave me enough freedom to allow the clearing and kinesiology to help me.

The idea is that the body and the mind records everything that has ever happened to it. It even knows the "code words" that the controller has used to "lock in" the programming. Clearing allows the therapist to "home in" on the exact time that the programming took place. By looking at the memory pattern over and over, it is "worn away" and weakened. When specific commands are implanted, the wernicke's procedure can find and remove them. When drugs are used, the kinesiology will balance out (cancel) the effects of the drug. The deliverance removes the demonic component of the equation and prevents interference by the dark forces.

Remember that these effects took many years to build up and it may take some time to undo. We have not completely "cracked" this programming, but with God's help, we will.

**SURFING:** Many "booby traps" were placed in you to stop you from remembering these experiences, including commands that were meant to make you fatally ill if you were to remember. I think it might be useful to others who may be experiencing these same things to explain a bit here about what Wernicke's commands are and how they were removed.

**MICHAEL:** The wernicke's commands are completely explained in the book. The procedure is outlined. The booby traps are dealt with slowly with God's help. We do a lot of extra praying when delving into this area. I am reading the Fritz Springmeier books at this moment to gain more information in this area.

**STEPHANIE:** It is generally known that research has shown that words are stored in a specific area on the left side of the brain. What is not so well known is that there is an equivalent area in the right half of the brain which is also involved with language. Both these areas are called the [Wernicke's area](#).

Experiments have shown that if the Wernicke's area in the left half of the brain is electrically stimulated during speech, it will [interfere](#) with the ability to talk properly, almost halting speech.

The same type of stimulation to the Wernicke's area in the right brain, however, causes a person to hear "voices" or "commands". These are usually of an authoritarian or dictatorial nature, and can be identified as the voice of one who was feared, admired or "looked up to" by the person being stimulated.

The 'authorities' who might have put commands into this mind are anyone that we might have looked up to at some time. These can include parents, teachers, peers, politicians, and doctors - and aliens.

Have you ever been told to "grow up", "shut up", "eat up", "forget that" or "give up"? Have you ever been told "you're mad", "you're bad", "you're stupid" or "you'll never make it"?

If somebody you thought was powerful or important said "you're too fat", "you'll never change", "you'll forget", "you're a slow learner", "eat ALL your food", "don't trust anyone", "you're not good enough", "strong enough", "clever enough" "you'll go to hell" etc. etc. then they may have made an 'entry' in your right Wernicke's area, an implanted command, which is still influencing you to this day!

In the case of people who have suffered an abduction experience, the commands have often been implanted INTENTIONALLY. Commands such as "you will forget" and "this never happened" and "you dreamed all this" are one reason why the victims have no conscious memory of the event.

In 1996 Australian kinesiologist David Bridgman made an astounding discovery. He realized how to remove negative beliefs from the brain!

The key to removing these beliefs is that they are stored in the brain as though another person said them e.g. "You won't remember". The brain then tries to make sense of a command and translates it, for example, as "I won't remember". This command then interferes with the person. To get rid of the command you must find the EXACT wording of the command, which in this case is "YOU won't remember".

The specific kinesiology procedure developed by David Bridgman enables

a person to REMOVE the sabotaging commands from the brain. Instant improvement is generally noted in the person who has done this.

This is a simple, revolutionary and very powerful procedure. If you are interested, send an email to me at [Stephanie@relfe.com](mailto:Stephanie@relfe.com) mentioning the Wernicke's video and I'll put you on a list to be notified when we have produced a video teaching this technique.

**SURFING:** Knowing all the disinformation that is in the mind control world, what measures do you take before you rely on someone else's information?

**MICHAEL:** I use prayer and ask God for spiritual discernment. I never totally rely on anyone's information except God's King James Bible.

**STEPHANIE:** I run my life by listening to my intuition. The more I do that, the more I can rely on the answers it gives me, as when I do it, it is always correct (although at the time it often may not seem to make a lot of sense). Also, I like to meet the person in the flesh (e.g. by going to [Global Sciences Congress](#)) to see what they're like and what vibration they give off.

**SURFING:** Because of so much disinformation in regard to mind control information, have you found a way using any of the techniques, beyond what your faith and intuition tells you, that helps you to verify that the information is truthful and coming from a pure motive, rather than one of deception?

**MICHAEL:** Our experience with Kinesiology and Clearing has proven to be effective in our situation. Kinesiology allows the body to indicate what is wrong with it. The Clearing technology and the "truth detector" meter can't be fooled. Let me stress the importance of "faith". If you don't deal with the demons, you don't deal with mind control.

As for other techniques, we are not familiar with any other techniques that claim to "break" programming. Most people use hypnosis. So do the bad guys. Hypnosis doesn't cure hypnosis. Hypnosis does not remove the cause of the problem.

**SURFING:** After many years, The TV Program [Alternative 3](#) has been released for viewing on the internet.

The film which was produced by Anglia Television aired in 1977. Quoting from the website: "Alternative Three - to build a "transfer station" on the backside of the Moon, build an underground base on Mars and remove a certain limited "Noah's Ark" cross section of Earth's population, artists, scientists, engineers, writers, etc., to Mars as a survival colony in the event of "catastrophe" on Earth. They started this project in 1961 and may have

accomplished most of this as well."

Is this what you believe has been accomplished on Mars? A "survival colony?"

( EDITORS NOTE: Alternative 3 can be viewed online/free:[HERE](#))

**MICHAEL:** The Mars Base project accomplishes that mission objective, however with the jump gate technology that is utilized by this group, colonization of other planets in other star systems is a reality. During one of the sessions I came to "know" that the mars base is a jumping off point to other bases on other planets and that it is used because of the electronic "interference" here on earth to too great to use that technology effectively.

Mars Base is not a survival colony. It is composed of several large installations located at different points around the planet.

**SURFING:** So, The "colonization" as described in Alternative 3 has taken place BUT on several planets other than Mars. Do you know what other planets are being accessed and/or colonized?

**MICHAEL:** No.

**SURFING:** It seems as if there are actually TWO governments at work here. One that we the public are told of and that operates close to what we as the public know as our current technological level of achievement. Then there seems to be a second "shadow" government that works at a much higher and secretive level. It also appears that these two government factions are either unaware of each other, or are at battle with each other. Is this perception correct? Do you have anything to add to this?

**MICHAEL:** This is pretty much my conclusion, however there is some overlap in their operations, what with them keeping me under "watch" since childhood as well as the way I was "recruited" from training in Great Lakes, Illinois.

**SURFING:** PAGE 101 - The Mars Records - You speak of how Reptilians at [Pine Gap Military Base](#) in Australia put "metaphysical hooks" into you taking part of your "mind and heart" and keeping them at Pine Gap. You state the reason for this was so the reptilians could "siphon off the energy and use it for barter."

What can you tell me about this?

**MICHAEL:** Only what came up in the session. That these reptilians had hooks into the energy centers of my body and that they were draining

energy to be used by them as a "sacrifice" to the dark forces that they serve.

They seek out those individuals with metapsychic abilities. That is what the "metagene" is about.

**SURFING:** In the notes regarding the session on page 101 of [THE MARS RECORDS](#) Stephanie writes: "It was found by muscle testing that reptilians do not fit the term "alien." They have been on this earth for such a long time that they are considered residents by our bodies."

What does this mean?

**MICHAEL:** Michael: This was an interesting discovery. Using muscle testing we ask our "body/mind/will/emotions" questions. Our body knows (genetic memory?) that these beings called reptilians have been on this planet for quite some time and they are not "alien" to it. It is interesting that the Bible describes a serpent like creature talking to Adam and Eve in the garden of Eden. In addition, many societies have stories of snake or reptile like creatures and in fact these creatures demanded worship and sacrifice from those societies.

**STEPHANIE:** I first discovered this about 5 years ago. There was a group of people who were doing work with a man who was working at a house in the country outside Sydney, Australia, owned by a friend of mine. He was showing them how to raise their frequency to the "Love Universe". He said that the opposite of love is not hate, it is "no love", and some people's frequency was in the "No-Love Universe", not the "Love Universe". (One way of getting into the No-Love Universe is to do a lot of work such as clearing where one is looking at negative stuff, without balancing it up by doing other positive work such as working to increase love).

I saw a number of people have this done to them, and it was sometimes quite amazing to watch. I saw a positive, physical change in one man who had once been a Catholic priest.

They started finding that some people would get very sick once their frequency was raised to the love universe. They then discovered that these people had "metaphysical circuitry " (wiring and other junk - presumably to block metaphysical abilities) on them, put there by aliens. From then on, the people would locate this junk (with muscle testing) and remove it before doing the frequency change.

This worked for a few people. However, they STILL found that some people got sick. They then got the realization that the body did not label reptilians as aliens, because they have been here as long as we have. After that, they would muscle test first for alien OR reptilian circuitry.

Sometimes they would get that one of these was present, some times the other, some times both, sometimes none. After that, no one got sick.

Interestingly enough, one evening I was there I learned one way to discover the presence of a reptilian. Three women were in a corner together when one said "What is that awful smell?" The other two could smell it as well. The man in charge of the sessions came quickly over, realizing that it was a reptilian (invisible, or in spirit), and commanded it to leave. The smell then went away. Since that time, I have noticed an awful 'rotten' smell a couple of times when there were negative emotions going on, and I have commanded it to leave (in Jesus' name if necessary), and things have improved.

An interesting find was after I told this story to Michael. He asked that I muscle test to find out what universe he was in. He was in the Love Universe. When I tested to find out when this happened, it happened when he accepted Jesus as his Lord and savior.

**SURFING:** You know that most people view your story as "unbelievable," I have seen comments on the internet stating it is everything from scientology to disinformation to something that should be seriously considered, what do you have to say, if anything, regarding this?

**MICHAEL:** "Black" projects of any type are not in most people's reality. It is much easier to believe that those in power do not have this technology than vice versa. The ramifications of The Mars Records are startling. I possess metaphysical abilities of sufficient "horsepower" that "they" find it necessary to "shut me off" as well as abduct me for medical procedures, all without my knowledge. They have the technology to easily accomplish this. If they can do this to me, they can do the same to you, your family, your government leaders, etc. No one is safe. Trust No One but God Almighty and The Lord Jesus Christ. Everyone else, get deliverance.

As for the Kinesiology, separate the superstition from the technology. Energy medicine is real and it works. The enemy knows about it and will use it against you. Learn to use it to nullify the attacks of the enemy and heal yourself.

As for Clearing, separate the superstition from the technology. Clearing technology is real and it works. It works outside of the influence of any organization. There exists a large group of individuals in all parts of the world using Clearing to help others. Many of these people have never been exposed to the teachings of any organization. The enemy will use mind control to enslave others. Clearing can be used to nullify the effects of these mind control programs.

As for the reality of The Mars Records, I can only say that this book was

written for a very small percentage of the population. It's for those people who are following God's plan for their life, to free themselves from bondage and to join the fight to free others as well. If you want to actively fight the enemy, learn deliverance, kinesiology or clearing (or all 3) and dedicate yourself to the fight. God will send people for you to help immediately thereafter.

At the end of the day, I have to look at the scars on my groin and wonder what they took out of me or put into me as well as wait for the next time. It's not "disinformation". It's my life.

**STEPHANIE:** I can't blame anyone that finds this unbelievable. Despite having read a lot of unusual stuff it has always happened to someone else, and so there have been times when I find it hard to believe too. But then all I have to do is add up in my mind the dozens of pieces of evidence that show that it is true. And they keep on coming!

Most people are too much involved in day-to-day material living to worry too much about all this. I hope though that there are some people out there who have been affected as we have who can use this information to begin to uncover answers as to why they are having troubles in their life, such as in their relationship, as we did initially.

**SURFING:** How does one live a "normal" life after experiences like this?

**MICHAEL:** There is no "normal" life. I live in a world where 98% of the population are "children" living in an artificially created state of consciousness resembling sleep. Daily they give away their health, their freedom and their souls to the god of this world, Lucifer. There is no "normal" life. There is the love of God, the love of my family and the love of doing Gods will for my life. That is enough.

**STEPHANIE:** I guess in some ways we don't. Everything looks completely different. One finds that one's old friends drop off, as one goes from new reality to new reality. Although this had already been happening to me before The Mars Records. Thanks to the net we are finding new friends such as yourself with whom we can relate about the important things. And luckily, we have God and each other for company.

**SURFING:** What advice can you offer to others who may have also been victims of mind control manipulation?

**MICHAEL:** A personal relationship with God almighty and The Lord Jesus Christ is the first step. Without His help, there is no freedom. As a result of that new relationship, you are now entitled to the free gift of deliverance, that is having the demons removed from you. Next, use Kinesiology and good food, clean water and supplements to get your health back. Then use

clearing technology and the wernicke's correction to remove the mind control commands from you. Then start helping others. That becomes YOUR ministry.

**STEPHANIE:** The first thing is to get a personal relationship with God. Listen to your heart and intuition - as that is where he will speak to you. Then ask God for guidance and take action when you get guided by your intuition. You will find out sooner or later if it was your intuition that spoke to you - or something else! In this way, you get to know better and better when it is truly your intuition speaking to you.

**The Mars Records: Interview with Michael and Stephanie Relfe**

By Eve Lorgen ©2000

The Mars Records, authored by Stephanie Relfe, is a 300-plus page document (See <http://www.TheMarsRecords.com>) chronicling the biofeedback sessions of her husband Michael who discovered he had been involved in a secret black project while in the Navy. Michael was astonished to find that he had been living a double life as a covert operative for The Mars Defense Force. Some of his assignments were covert ops, piloting spacecraft, remote viewing, psychic defense and even psychic assassinations.

Michael's recruitment, training and service for Mars Defense Force was carried out via sophisticated alien and military mind control technology. This included implants, hypno-programming, dissociation of specifically trained alter personalities, advanced psi training, speed learning, psi enhancing drugs and time travel. Michael's case is unique and very important because he is one of a very handful of persons who have been able to clear, recall and deprogram the sophisticated alien and military mind programming. His success in memory retrieval and deprogramming is due to deliverance prayer and the excellent therapeutic skills of his wife, Stephanie Relfe. She uses a combination of biofeedback clearing sessions and kinesiology.

Michael still experiences abductions by an alien and human military element working conjointly. But because of his level of therapeutic success with deliverance, clearing and kinesiology, Michael has a greater sense of personal control, awareness and is not as susceptible to the mind control that the abductors continue to try to use on him.

Many researchers in the field of Ufology, Paranormal and Mind Control have a tendency to view things as a black and white picture. Either all abductions are some military black project using aliens as a cover story, or it's all aliens, because we don't have such a high level of technology. Such is not the case in Michael's experience, or in many other MILAB abductees that I have interviewed.

I strongly encourage the reader to read the full Mars Records document. If this is true-- and I think it is--we are dealing with such a high level of "alien" technology, that to gain control back into our lives, we need to do a lot of soul searching work.

MR: - Michael R.

SR: Stephanie Relfe

EL: Eve Lorgen

EL: Michael, as a child did you experience any UFO sightings or signs of alien abduction?

MR: With the exception of the incident described in The Mars Records, I have no memories of any UFO sightings, alien abductions or missing time. That one incident (childhood UFO dream) has always "stuck" in my mind because it was so real. While growing up I asked my parents about it several times and they just said I must have been dreaming.

EL: Do you think that the surfacing of your Mars Defense Ops is somehow related to this earlier UFO "dream"?

MR: Yes, I feel that the emotional "charge" or energy associated with that incident eventually led me to accept a clearing session offered by Stephanie to see if anything could be discovered. Little did we know what we would find.

EL: Stephanie, can you tell us briefly how Clearing sessions work?

SR: Clearing uses (1) a biofeedback meter which measures one level below consciousness and (2) specific rules and techniques for communicating which enable a person's mind to uncover the TRUTH of what is the cause of their upsets and problems.

The meter puts a small, harmless electrical current through the person's body. The mind and body interact. By measuring changes in the body's resistance, the meter measures changes in the person's mind.

Emotional upset comes from things that happened to us in the past. The upset is stored as energy, "charge", in the mind. It is stored in a mind called the "unconscious mind" which is why we can't access these memories normally. With the help of the clearing practitioner and the meter, a person can consciously get to find out what is in his unconscious mind.

We get rid of this charge in clearing by creating a PERFECT COPY of it. Two things cannot exist in the same place at the same time. With the help of the bio meter and the clearing practitioner, the hidden memories come into view. Once the person creates a perfect copy, the original charge vanishes. This causes their mind to be "lighter". This reads on the meter as an instantaneous change in their body. And the person realizes finally what has been going on.

The Mars Records is very different from any other book previously published in that it includes all the readings from the meter as well as an explanation as to what they mean. The readings back up the truth of this incredible story.

Also, the application of kinesiology muscle testing. The basis of kinesiology is that the body is an electrical instrument and the brain is a very powerful computer. The computer is sending signals to all the muscles and back again. Muscle testing isolates a particular muscle by putting an arm in a particular position. The kinesiologist can then "talk" directly to the brain and ask it different questions. Depending on the answer, the person being tested either will or won't be able to hold their arm up, which is how the brain communicates to us.

EL: Stephanie, why do you think this particular combination is better than hypnosis in recovering repressed memories?

SR: The problem with hypnosis is that it works by shutting the conscious mind down. This does not help the person to grow in spiritual strength and understanding. Rather, the opposite. Once the person is hypnotized, more "stuff" is put into the unconscious mind.

We want ALL the memories to become conscious, and to clear the charge from them. This causes an increase in the person's spiritual strength.

EL: Have you ever worked with other abductees or mind control victims with repressed memories?

SR: Not with clearing. With kinesiology I have had about 10 people out of several hundred that had had experiences. Some of these people knew about it, others didn't. Some could handle what I told them, others couldn't. It is amazing what one discovers about someone with kinesiology. For example, I was working on one woman who had incredible sleeping problems. She was very "blocked" and almost impossible to test, which is most unusual. I began to suspect abduction. It turned out her problems started the day she woke up at 2 am, and found her little girl outside on the doorstep (freezing cold), which was "impossible" because the little girl was too small to reach the door handle.

Another woman I worked on had no problem accepting that she had been abducted. She was quite psychic. While working on a problem to do with a pain in her leg, an incident surfaced. She told me that she had 24 hours of missing time, when she and her boyfriend rode on a bike up north along 300 miles of deserted road in Queensland, Australia. They felt like lying down beside the road. When they go to the New Year's party they were going to, it was all over. They were a day later! Her boyfriend was in a huge rage, and left her then and there. Using the communication techniques from clearing (but without the meter) she relived an incident where men in black clothes came for them both and took them onto a spaceship. Insectoids that looked like human sized praying mantises worked on them before returning them to the original spot.

EL: Michael, you mentioned in the Mars Records that you used deliverance prayer sessions even before you met Stephanie. What made you decide to try this method?

MR: Deliverance is the "casting out" or removing of evil spirits from a person who does NOT want them there. Witches and magicians WANT to have evil spirits inside them, which is how they obtain their "power". Christians do NOT want evil spirits as they hinder and stop spiritual growth and progress.

Deliverance is a gift from the Lord Jesus Christ for HIS people. It is NOT for the unbelieving public at large. The Bible refers to deliverance as the "Children's Bread". In 1983 when I was living in Tulsa, Oklahoma, I believed in God but was not living a Christian life and did not have a close walk with the Lord Jesus Christ. In one of my newsletters that exposed the Illuminati, the author had a couple of tapes on offer by a preacher named Win Worley. One was titled, "Mass Deliverance". This tape was a recording of a group deliverance service at a small Baptist church near Chicago. When listening to this tape, I was unprepared for what happened. I listened to the sermon and explanation of terms. I participated in the prayers that the preacher led the group through. I felt that "something" happened but I did not know what. Then the preacher started calling a list of names of demons (lust, jealousy, hatred, etc. there were many of them) and ordered them to leave the people. Immediately I felt VERY strange and "things" started leaving me. Burping, belching, tears, coughing, dry heaves, etc. I just kept participating and praying in my head for anything "bad" to leave me. This went on for about an hour. By the time the tape was over I felt VERY different. The initial session (and many more after) enabled me to get free enough from the holds of the enemy to start walking a Christian life.

EL: Do you think that your Mars--mind control and abductions memories would have surfaced in the Clearing sessions if you had NOT done deliverance first?

MR: No. At the time of starting deliverance in 1983, I was too bound up and enslaved to whatever programming I was given in the Navy to ever consider that I actually needed help. It took 13 years of God working on me for me to be ready for clearing. You must remember that not everyone involved in TRV (Tactical Remote Viewing) is chosen for target termination. It takes a certain personality to be effective as an assassin. I was cold, hard and arrogant.

EL: Why do you think you were recruited for the Mars Defense Force while in the Navy in 1976?

MR: It appears that I have been a "lab rat" all my life. Modifications were made to my father, which resulted in me. Modifications (genetic) were made to me at a young age and while growing up. Somewhere along the

way I was encouraged (programmed) to join the Navy. The government knew my psychological profile. My father was physically abusive and a problem drinker (probably because of what they did to him). When I joined the Navy, I was very dedicated and "gung-ho". I substituted the government and the discipline and order for the lack of father figure in my life.

I was selected for the Nuclear Power Program after missing one question on the entrance test. I attended basic electronics school at Great Lakes, IL. During the waiting time for Nuclear Power School, I was assigned as an "instructor assistant". It was during this time I was awakened one night, led to another room and asked if I wanted to VOLUNTEER for a top-secret project. I accepted (they knew I would because of my "special patriotism"). The Mars Records details what happened next.

To answer your question, I was recruited because I have a genetically based talent for Remote Viewing that the government wanted to exploit for its own purposes.

EL: Michael, can you describe some of the training you went through to enhance your psychic abilities? In the Mars Records you describe a type of speed learning used on other Mars Base recruits too. What was this like?

MR: From what I have been able to recall, it was a structured program broken down into different phases. Even after being moved to active duty, training was still a constant requirement. It started very slow and easy in the beginning. There were a lot of different medical tests and collecting of data to get an idea of my health, strength, etc. The preliminary tests were done and I was subject to certain drugs to enhance my talent. These drugs can kill and cause permanent damage so they are done slowly over a period of weeks. I believe these drugs made permanent changes in the brain and "opened up" certain energy channels, circuits, etc. After surviving the drugs, more tests are given to see the results of the drugs. Then different speed learning techniques are used to program a lot of information in a short period of time. Then training moves on to "the machines". These machines are amplifiers of Psi abilities. There was some type of surgically inserted "interface" device implanted in my "third eye" area to allow connection to these machines. There is constant training with the machines as well as calibrations, exercises and tests.

EL: Are you aware of any alter personalities?

MR: Clearing and Kinesiology procedures have uncovered 4 "compartments" each sealed off from the others that have various trainings and duties. We refer to the "real" me as Michael # 1. The others are Michael # 2, Michael # 3, and Michael #4. These compartments are sealed with various codes and passwords that we do not have.

EL: Do you think these alter personalities were created through trauma, as is described by other MC victims such as Andy Pero (of Project Superman-Montauk boy) and Bryce Taylor (Thanks for the Memories-- Monarch Program)?

MR: No. I believe that Psi abilities for these programs are rare and that any trauma could damage the ability. Trauma is old technology. The machines and techniques these people have are hundreds of years beyond that. Remember that I volunteered for this program. I was a willing candidate, serving my country as best as I could.

EL: Michael, your case is interesting in that there are characteristics of both alien abduction related symptomology and signs of MK ultra mind control. I think it's important for others to know that these "experiences" are not an either/or situation, but rather a combination of alien, military and human involvement. Can you describe some of the "booby traps" you encountered before recovering memories? And importantly, who installed these booby traps?

MR: The outer layers of the "booby traps" were commands to forget, not remember, etc. Next were commands that were distractions that would try to lead us off on a tangent. The next layers were the traps that would hurt me, i.e., heart attack, stroke, organ failures, etc. These traps were installed by whomever did the initial mind programming many years ago.

EL: Stephanie, how did you help Michael get through these "booby traps"?

SR: We found them first by knowing that they would be there. (It only makes sense) Then I muscle tested to see if there were any "booby traps". The body told me that there were at least ten. We then used the "Wernicke's correction" to remove them. It is generally known that research has shown that words are stored in a specific area of the brain. What is not so well known is that there is an equivalent area in the right half of the brain which is also involved with language. Both these areas are called the Wernicke's area.

Experiments have shown that if the Wernicke's area in the left half of the brain is electrically stimulated during speech, it will interfere with the ability to talk properly, almost halting speech. The same type of stimulation to the Wernicke's area in the right brain, however, causes a person to hear "voices" or "commands". These are usually of an authoritarian or dictatorial nature, and can be identified as the voice of one who was feared, admired or looked up to by the person being stimulated. The "authorities" who might have put commands into this mind are anyone that we might have looked up to at sometimes. These can include parents, teachers, peers, politicians, and doctors-and aliens. Have you ever been told to "grow-up", "shut-up", "forget that" or "give up"? Have you ever been told "you're mad", "you're bad", "you're stupid" or "you'll never make it"?

If somebody you thought was powerful or important said "you're too fat", "you'll never change", "you'll forget", "don't trust anyone", "you're not good enough", "you'll go to hell" etc., then they may have made an "entry" in your right Wernicke's area, an implanted command, which is still influencing you to this day!

In the case of people who have suffered an abduction experience, the commands have often been implanted INTENTIONALLY with force or drugs to lock them in more securely. Commands such as "you will forget", and "this never happened" and "you dreamed all this" are reasons why the victims have no conscious memory of the event. Booby traps are commands such as "you will have a heart attack if you remember."

In 1996 an Australian kinesiologist David Bridgeman made an astounding discovery. He realized how to remove negative beliefs and commands from the brain! The key to removing these beliefs is that they are stored in the brain as through another person said them, e.g. "You won't remember". The brain then tries to make sense of a command and translates it, for example, as "I won't remember". This command then interferes with the person. To get rid of the command you must find the EXACT wording of the command, which in this case is, "YOU won't remember". The specific procedure developed by David Bridgeman enables a person to REMOVE the sabotaging commands from the brain. Instant improvement is generally noted in the person who has done this.

This is a simple, revolutionary, and very powerful procedure. If you are interested, send e-mail to me at [info@metatech.org](mailto:info@metatech.org) mentioning the Wernicke's video and I'll put you on a list to be notified when we have produced a video teaching this technique. In the meantime, the technique is described in the Mars Records.

EL: I know from my own experiences working with abductees, that many distractions and even reprisals occur when they try to access their alien "programming" and abduction memories. How did both of you get around these roadblocks, and did you experience any major reprisals?

MR: We have received psychic attacks fairly often since The Mars Records were released. These attacks take the form of surveillance, monitoring and blocking of clearing sessions, energy "drains" being hooked into each of us, offensive attacks meant to hurt us using radionics, psychotronics and various "death signal" devices as well as RV and psychic attacks while sleeping.

In addition, during the monthly "medical check-up" abductions different techniques are tried to discourage us. Such as multiple layers to mind control commands, multiple layers of drugs as well as a new thing, putting the equivalent drug directly into the "etheric" body. This is especially bad, as most people don't even know they have energy bodies!

EL: One of the most unbelievable aspects of your story is the age regression and time travel you experienced. What was this like?

MR: The age regression was pure boredom. Being kept in a dreamlike, semi-conscious state for weeks was very boring. That's the only memory I have been able to recall. The 20-year time jump back to 1976 was over before it began. Walking through the tunnel was uneventful.

EL: Tell me about the time travel jumpgates.

MR: I was not a jumpgate technician so I only remember things from a layman's point of view. This technology was a result of the Philadelphia Experiment projects as described by Dr. Al Bielek. It's one of those things that are "Ohh, Wow, Fantastic" the first time you see them, and then they become taken for granted. I also remember that they were guarded REALLY tight and that every moment of use was accounted for and logged.

I remember that there were several jumpgate stations on Mars Base. These stations were "hooked to" other places and they were defended against someone or something. I remember that RV technicians hooked to the machines assisted in that defense. Remember that Tactical Remote Viewing is not only used to terminate targets. Termination is a tiny percentage of all operations. It is used mostly to defend against the enemy. It is used to defend Very Important People (VIP's), Very Important Equipment (VIE's), areas and regions of the planet. In addition, some weapons systems require an RV operator to monitor and direct them. There are physical weapons systems (example like a particle beam projector) and there are other types of weapons that are energetic (Psi) types of systems. Also RV operators are commonly assigned to monitor attack craft on patrol.

The enemy also has Psi types of weapons systems that they direct against our physical type static shielding. Static shielding doesn't change. It stays the same no matter what you throw at it. To augment the static shielding, you have RV operators that monitor and probe the shields looking for penetration. If penetration is discovered, an RV operator can trace the source through space-time and deal with the intruder. RV operators on duty are not alone. They have backup operators in addition to supervisor operators, They can instantaneously get backup if the need arises. I have seen many ads for books and courses for remote viewing. Most of what passes for RV at this time is about the first 3 or 4 days of training at Mars Base. And most people involved in this sort of thing would, unfortunately never survive the training. The drugs would kill them quick.

EL: One has to wonder then, what could or would have happened if your future Michael, who was working on Mars, somehow came into contact with the present day Michael (on earth) before 1996?

MR: This would NEVER be allowed to happen. The program works the way it does because NO ONE on duty (who will eventually be times hot back to their origin) is permitted to interact with any time event (or person) of earth while stationed on Mars Base. That means that visitors and VIP's are OFF limits. Anyone visiting for a short period is "spending time" on Mars and will NOT be time shot back to their origin. They will just be moved by jumpgate to and from Mars.

To clarify: Remember there are 2 kinds of people that I remember.

1. People visiting Mars temporarily (Politicians, etc.) They travel to and from Mars by jumpgate. They visit for a few weeks and return. They are not time traveled back. They are VIP's. They are OFF LIMITS!!

2. Permanent staff, They spend 20 years duty cycle. At the end of their duty cycle they are age reversed and time shot back to their space-time origin point. They are sent back with memories blocked. They are sent back to complete their destiny on earth.

EL: Did you recall any "future memories" or strange dreams (before your clearing sessions) of your Mars Defense Base deployment? (In other words, any signs of you being an operative via dreams, hunches, de ja vu's etc.

MR: Only one. Before ever meeting Stephanie, I had an ongoing "joke" that when someone asked about my military experience, I would say "... and I deny working on the Mars Colony". It would always get a laugh. I believe that this was one of the first and strongest mind control commands "leaking through".

EL: What could one look for if they suspect they are in such a position like you were. I mean there must be others involved who have had similar experiences?

MR:

1. Memories that don't seem quite "right". Memories that have a 2 dimensional "cartoon like" feel to them.

2. Interest in or understanding of technical things that you can't remember going to school for.

3. Military records showing duty at places that you can't remember.

4. Unusual rage as a result of abductions.

5. Abduction or missing time. Waking up extremely exhausted with marks or bruises on any part of your body.

6. Muscle testing showing that the body has been "taken".

7. Muscle testing showing emotions of "no choice".

EL: Do you think the Greys are working in conjunction with our own human military in the abduction scenario?

MR: Yes

EL: What about the Reptilians?

MR: Yes. They are racially related (Draconians, Reptilians, Greys,)

EL: Do any Greys and Reptilians live on the Mars Base?

MR: Yes, some are stationed there. I remember the Greys as doctors or technicians. I believe the Reptilians stay camouflaged (cloaked) most of the time. They prefer to appear human because they are naturally fierce looking.

EL: One of the more fascinating and disturbing aspects of your experience is the mention of aliens or "bad guy mind controllers" fragmenting the soul and personality of the abductee. How do you think this is done, and what purpose do you think the aliens have for us?

MR: Soul fragmentation is mentioned in the Bible. Several times people are praying and thanking God for restoring their soul. I know that shock and trauma can cause soul fragmentation. Those involved in the occult have their own souls fragmented by their rituals and other involvements. Any severe act of sin, (witchcraft, Satan worship, Masonic ritual, homosexuality, violence against other people, etc) can fragment the sinner's soul as well as the victim. I do not know the mechanisms for how this is accomplished. The reason for their programs is clearly explained in the Bible. The ultimate goal of all programs of mind control and enslavement is WORSHIP. Lucifer wants to be God and will do anything to trick, convince or control others to worship him. Everything else is detail.

EL: Do they have a method for draining our energy?

MR: Yes. They place a psychic "hook" into the person and drain their energy. They do it slowly so as not to arouse suspicion.

(EL-Maybe this is one of the reasons for chronic fatigue amongst so many abductees!)

EL: Most importantly, how can other abductees and mind control victims protect themselves from this kind of thing?

MR:

1. Step one is to establish a personal relationship with the Lord Jesus Christ. Without His help, there will be no lasting freedom from the demonic armies of the enemy.

2. Repair your body of the damage that has been done to it. Drink pure water only. No fluoride toothpaste. No MSG. Eat nothing containing aspartame. No candy, no liquid candy (soft drinks). No alcohol. Eat only good fats and oils (olive oil and butter). No microwaved food. Remove mercury fillings from your teeth.

3. Use kinesiology to put your body back in balance.

4. Use a colon cleanse to clean out the accumulated garbage in your system.

5. Do a parasite cleanse to kill the parasites in your colon.

6. Use the clearing biofeedback meter to uncover and eliminate the results of any abduction or involvement in mind control programs.

EL: Michael, in retrospect, do you think you ever would have recalled your memories had you not done deliverance and clearing sessions?

MR: No. Without the power of the Lord Jesus Christ, there is no deliverance. These people have technology THOUSANDS of years ahead of anything you can think of in your wildest nightmare. They think they are invincible and in total control. You will not fight these people with technology or your own "psychic" abilities.

Here I am, an ex-operative for these people, with in the field combat experience utilizing Remote Viewing for tactical operations. I have a high Psi efficiency, "raw horsepower" if you will, so much so that my final target termination count was 70 terminations. Some of these were reptilians. And I survived those operations. When operational, I was VERY good at my job. NONE of the so-called "big name" remote viewers would last a microsecond against me. And that's a fact.

And all this "accomplishment" means NOTHING. They are in control of my physical body and they "shut me down" like an old television. They aren't worried by "powers" and abilities". If they aren't worried about me they probably aren't worried about you. It's ONLY the power of God that can free a person from this kind of control. And that deliverance is given in God's timeframe as fast as he permits. It was my mistake that I volunteered for this program. I actually don't deserve to ever get out. It's only by the mercy of Jesus Christ that I have come this far and will continue on this path.

EL: Do you think you are still being abducted? How does this happen?

MR: Yes. The monthly "medical check-ups" continue. We will be sleeping when a jumpgate (portal) opens in our bedroom. They awaken me and trigger my programming. They say, "Come along Mr. Relfe" or something similar and I follow them through the portal. Most of the time it is a woman with short dark hair (like a pageboy cut). Once it was a soldier in the black

battle dress utilities. During the clearing session I remember asking them questions and I threw them a kick at the soldier. I missed and hit the metal table and woke up the following morning with a large chunk taken out of my toenail.

It opens into some type of hospital like waiting area, where a nurse greets me, makes small talk and does a preliminary exam (blood pressure, etc.). I am then given a drug and led to a table on wheels. I am taken to the operating room where they give me more drugs and 1) take samples from my testicles, 2) they cut between my eyes and extract something from the organ that is there. I am then sent to the recovery area for a couple of hours. They then put these goggles or headgear over my eyes to insert the mind control commands. Then they leave me to recover from that procedure. Then they lead me back to the portal where I return to bed and continue sleeping. This last time (9/16/00) I awoke with a raging fever of 103 degrees. I had this for 5 days before starting to feel better. It's been 10 days and I am still not 100% better. Kinesiology showed that I had been "vaccinated" with something. I believe I was given a strong dose to make sure that I was immunized against whatever is coming. The effects were very painful.

EL; What do you think the UFO research and Mind Control community need to do to assist those who are going through MILAB experiences?

MR: These are 2 different communities. Remember that with almost 10,000 hits on our [www.TheMarsRecords.com](http://www.TheMarsRecords.com) and with over 6000 downloads of the book, ONLY 5 PEOPLE have requested more information. For most people this is just entertainment and they aren't interested in helping anyone.

The Mind Control "community" is filled with "victims" who are so afraid of reading something that will be "triggering" that they isolate themselves from possible sources of help. They think that by talking amongst themselves that somehow their problems will vanish. I am here to tell you that it just won't happen. These people need deliverance and they need it now.

**IF YOU AREN'T FIGHTING DEMONS, YOU AREN'T FIGHTING MIND CONTROL.**

And as for the "UFO RESEARCH" community, they sell T-shirts and chase lights in the sky. UFO research is now a business and it is controlled and compartmentalized by the intelligence agencies. (EL-- I have to second you on that opinion!)

Inside the community is a small group of people that God has raised up to try to help abductees by giving them somewhere to turn. The problem is that when you are dealing with the demonic world and trying to do it without Jesus Christ, you are doomed to failure. Even though these people

are trying to help as best they can, remember that HYPNOSIS CANNOT FIGHT HYPNOSIS. And if you do uncover memories, the damage done by the experience is NOT being removed. So the people are sometimes worse off than before.

EL: What do you see as lacking in today's researchers?

MR: I cannot judge any individual person, as I have not walked in their shoes. I can only say that the pro New Age/anti-Christian bias displayed by most UFO researchers is in fact their weakness. Until these researchers accept Jesus Christ as their boss and work to accomplish what He would have them do, they will continue to wander in the devils playground, never finding answers to their questions.

### **Appendix III: YOU can Stop Alien & Military Abduction!**

©Michael Relfe 2002

This document contains a complete description of the procedure that God gave to me to stop the enemy's abduction process. The initial understanding of these prayers came as a result of my praying for guidance on how to defeat the periodic abductions I was being exposed to (Session 100 – 15 Oct 2000). Here are some of the things we have learned since Oct 2000 (these apply only to my situation as described in The Mars Records – Volume 1 and 2 – Your situation may be different).

- Although the abductions usually involved U.S. military personnel, a non-human being (Grey Alien and/or Reptilian) might be briefly observed working with them. On several occasions only Grey Aliens or only Reptilians would perform the abduction.
- If the target is located near a base or installation, they may attempt to acquire the target by visiting their home/apartment/hotel and taking them in person. This can be defeated by using a **portable door lock** (the kind used by travellers in hotels) on **EVERY** door in their home. These agencies have tools to defeat every type of commercially available lock as well as the various chains and swing latches that allow the door to be “cracked” open. Only the portable door locks are secure.

- The enemy has at their disposal multiple technologies that will allow them to abduct an individual from their bedroom, examine/operate/indoctrinate them and return them to their bedroom without being detected. They can “keep” an individual for weeks and return them to a time a few minutes after they were taken. The names of those technologies that I am aware of are :

Jumpgate technology  
 Fractal Jumpgate technology  
 Transporter technology  
 Fractal Transporter technology  
 Teleportation technology  
 Fractal Teleportation technology  
 Time Travel technology  
 Fractal Time Travel technology  
 Dimensional Travel technology

 Walk-through-the-walls technology  
 Fractal walk-through-the-walls technology  
 A ‘sender’<sup>14</sup> sending something into your room  
 A ‘sender’ pulling you out of your room

Other technologies will be developed. They must be added to the list. God will help you to “know” what they are while praying. Change your attack strategy accordingly.

- As described in Session 100, God will answer your prayers to prevent the above listed technologies from functioning in your home, apartment or hotel.
- When you begin to engage in spiritual warfare against the enemy, they will pull out all the stops in attacking you. They may use witchcraft, black magic, different types of psychic and remote viewing attack and radionics, psychotronics and psionics attacks against you. Sometimes you won’t even know the name of what they are doing.
- Spiritual warfare is the act of engaging in battle against the enemy: breaking curses, spells and psychic prayers, binding the demons and

entities that are attacking, loosing the angels of God into battle, praying for angelic protection, among others. Deliverance is the casting out of demons from a person or object. **ALL** of these ways of warfare require power and authority from God Himself.

- The **ONLY** known way to obtain the required power and authority to defeat the enemy and to stop the abductions of you and your family is to accept The Lord Jesus Christ as your Lord and saviour. When you take that first step of faith, you immediately leave the jurisdiction of “Satan, the god of this world” and enter into the kingdom of God Almighty. You are drafted into the army of God and are given power and authority over the enemy. From that moment forward you are expected to fight the enemy and to fulfil God’s plan in your life while on earth. You are assured of **eternal life** when your days are done.
- You absolutely **will not** defeat this enemy by using your own metaphysical abilities, prayer to anything outside of God Almighty and His son Jesus Christ, machines or devices you make or by any help from any ET, “Spacebrother”, Alien, Witch, Psychic, Occultist or anyone or anything else. I know from personal experience. I was not abducted into their “service”. I volunteered. I was a highly efficient killing machine for these beings. I have a high “horsepower” rating as well as several rare skill sets. My mission profiles were extensive and successful and beyond anything described by the so called remote viewers on the best seller list. And while reading **The Mars Records** you will see how easily these beings controlled me. They turned me on and off as easily as you would a toaster. I had absolutely **ZERO chance** of escape. **ONLY** by the grace of God Himself and the power of The Lord Jesus Christ did I escape to the degree I presently have.

- **YOU can do the exact same things as I have if you have a personal relationship with The Lord Jesus Christ and if you have faith and follow the warfare prayers in this document. Prayer does NOT rely on metaphysical abilities or training. I myself do NOTHING. God performs the miracles.**
- The following warfare prayers work. Regardless of what your church corporation or untrained pastor may think, spiritual warfare works, is infinitely powerful and the only thing known that will defeat the enemy. While pastors argue over whether a Christian can have a demon or whether or not to lay hands on a member while they are dying, the military alien complex continues to abduct, operate on and indoctrinate many thousands of people worldwide, while the churches stay silent.
- Spiritual Warfare is a daily endeavour. God will show you what to pray for during prayer, while reading what has happened to others or while being told things about other people's experiences. If you pray against something that is not there or that doesn't apply to you, nothing happens. It is better to pray than not to pray.
- If you are serious about spiritual warfare and fighting the enemy and are willing to put yourself on the line for others, I would suggest you contact Hegewisch Baptist Church in Highland, IN ([www.hbcdelivers.com](http://www.hbcdelivers.com)) for their book and tape catalog. The book series "Battling The Host Of Hell" is an 8 volume set of intensive training in spiritual warfare. In addition you will require many of the taped sermons by Win Worley. The first tape should be "**Group Deliverance**". Other valuable subjects are **Soul Fragmentation, Breaking Curses, Binding and Loosing, Soul Ties**, among others. The videos will convince even the most unbelieving person concerning the reality of the demonic world. Hegewisch Baptist Church is a small, independent church not affiliated with any organization of any kind. You can visit Hegewisch for to receive help at any time.

### Pray for angelic shields around your house or apartment.

**Note:** If you start doing this on a regular basis, the enemy will pour a lot of interference in your direction, trying to discourage you. God will sometimes allow this to make you a better soldier. The following are some of the things that have been sent to interfere with me. This list is **not** complete.

<b>Shadows</b>	<b>Dampening Field</b>

## SOUL TIES To CHAKRAS

**Note:** *The following refers to the body's energy centers known as chakras. It doesn't matter if you believe they exist or not. God created them just like he created your arm or leg. The enemy attacks them and since most don't believe they exist, the attack goes unchallenged and the damage will accumulate. Always divide the technology from the superstition. And never go looking for things or exploring outside of God's protection. Just understand they exist and protect them from the enemy. And learn the difference between physical, metaphysical and spiritual.*

## **Cancel Satan's plan in your life**

*Satan has a plan for everyone's life, just as GOD has a plan for everyone's life. That plan has someone in charge of it and a lot of subordinate spirits directing it. It is a very good idea to get rid of Satan's plan and substitute GOD's plan.*

In the name of The Lord Jesus Christ, I bind the strongman over Satan's plan for my life and I toss him off his throne in Jesus name. Father I ask you to send angels to bind this strongman inside of boxes, inside of more boxes to 1,000,000 levels deep, with angels singing scripture to him night and day, in Jesus name. Father I ask you to send angels to guard that box so the demons cannot free him, in Jesus name. In Jesus name I bind all demons subordinate to the strongman over Satan's plan for my life. In Jesus name I cut you loose from all your assignments, I close every door that was opened to you and I cancel every legal hold and every legal ground that you have on me, in Jesus name. I command all demons subordinate to the strongman over Satan's plan for my life to leave now, in Jesus name. In Jesus name I bind all other spirits and entities under the command of the strongman over Satan's plan for my life. In Jesus name I cut you loose from all your assignments, I close every door that was opened to you and I cancel every legal hold and every legal ground that you have on me, in Jesus name. In Jesus name I loose you from all commands, controls, attachments, mind control, programming, agreements, oaths and bonds to the strongman over Satan's plan for my life or any of his subordinates. I command all demons to go where Jesus wants you to go and I command all other entities to go home and never return, in Jesus name I pray, amen.

## Akashic Records

*While praying one night I was led to believe that the forces of darkness use the Akashic records<sup>15</sup> database against people and that it would in fact be a good idea to remove oneself from it. It is quite possible that Lucifer himself is the owner of such a database. I believe the following prayer accomplished that objective.*

Father, in the name of The Lord Jesus Christ I break, crush, destroy and sever every soul tie, hook, link, connection, attachment and device from myself to the Akashic records and from the Akashic records back to myself, in Jesus' name. Father, I ask you to remove, delete, purge and destroy all my records, images, thoughts, words and actions stored in this system as well as all duplicate copies, backup copies, emergency copies and extra copies stored anywhere in creation, in Jesus' name. Father, I ask you to totally remove me from every system, database, storage device, archive and library owned or operated by the forces of darkness and to prevent my information from being put back into those systems, in Jesus' name I pray, amen.

<sup>15</sup> Akashic Records: A theosophical term referring to an universal filing system which records every occurring thought, word, and action. The records are impressed on a subtle substance called akasha (or Soniferous Ether). In Hindu mysticism this akasha is thought to be the primary principle of nature from which the other four natural principles, fire, air, earth, and water, are created. These five principles also represent the five senses of the human being.

Some indicate the akashic records are similar to a Cosmic or collective consciousness. The records have been referred to by different names including the Cosmic Mind, the Universal Mind, the collective unconscious, or the collective subconscious. Others think the akashic records make clairvoyance and psychic perception possible. From an metaphysical database website [www.themystica.com](http://www.themystica.com)

Stephanie and I came under harsh attack on 11/24/2001. I prayed and broke curses, etc. The Lord let me understand that this was something new so I asked for millions and millions of legions of angels to directly attack the place from which the attack was originating. I asked God to have the angels destroy the hardware, software, systems, networks and energy supplies of the attacking installation. This seemed to help and so we went to sleep.

We awoke the morning of the 24<sup>th</sup> and Stephanie was feeling unwell. I gave her a balance. She was “switched” and her valves were out. Kinesiology indicated that she was under attack from something other than Reptilians, Greys, Draconians or Insects. Kinesiology indicated that I did not know about this and had never dealt with it before. It came up as a combination of witchcraft and radionics. Stephanie got a realization that it was a spell that was being transmitted by radionics. Note that Stephanie knows nothing about how radionics works, only that “it” can transmit something.

Here is how we dealt with it.

I knew that I was in over my head on this one and that I needed a lot of help. God always comes through when the enemy attacks, no matter what kind of attack.

### **Ask for help**

Heavenly Father, In the name of The Lord Jesus Christ I come to you and I praise you and Thank You for the blessings you have given to Stephanie and I. Thank You for keeping us safe and sound against the attacks of the enemy. In Jesus’ name I ask you to please free Stephanie from these attacks and keep her safe from the enemy. In Jesus’ name, please remove all these things attacking Stephanie and send them back to whoever sent them, in Jesus’ name I Pray, Amen.

### **Ask for tactical information**

Father, In The name Of The Lord Jesus Christ, I ask you to please give me discernment to discover where these attacks are coming from and to give me wisdom, knowledge, understanding and determination to defeat the enemy making these attacks, in Jesus name I pray, amen.

### **Break curses**

In the name of The Lord Jesus Christ I break every curse, every spell, every psychic prayer and attack put upon Stephanie by any person, place, thing, witch, occult source, psychic source, Reptilian, Draconian, Grey, Insect or any other entity, in Jesus' name. In Jesus' name I bind every thing that came into Stephanie from those curses, spells, psychic prayers and attacks. In Jesus' name I cut you spirits loose from all your assignments, I take away every legal ground and legal hold you have on Stephanie and I close every door that was opened to you, in Jesus' name. In Jesus' name, I order every thing that came into Stephanie to leave her now. Father, please send these things back to who or whatever sent them, to bring them to repentance, in Jesus' name I pray, Amen.

### **Change your frequencies**

In the name of The Lord Jesus Christ, Father I ask you to change all of Stephanie's frequencies so that the radionics machines won't be able to lock on to her and so that the enemy won't be able to find her, in Jesus' name I pray, Amen.

### **Remove energy drains**

In the name of The Lord Jesus Christ, I break every energy drain put upon Stephanie and I command everything that came into Stephanie from that energy drain to leave her now, in Jesus' name, amen.

### **Deactivate the radionics machine**

In the name of the Lord Jesus Christ, I bind the strongman over the radionics machine attacking Stephanie and I throw him off his throne, in Jesus' name. In Jesus' name Father I ask you to send angels to bind the strongman over the radionics machine attacking Stephanie. I ask you to bind him inside of boxes, inside of boxes, 1,000,000 levels deep, with angels singing scripture to him night and day, in Jesus' name. In Jesus' name, I bind all subordinate demons that are directing and controlling the radionics machine attacking Stephanie. I cut you loose from all you assignments, I remove every legal hold and legal ground you have on Stephanie and I close every door that was opened to you, in Jesus' name. I command you to leave the machine now, in Jesus' name. In Jesus' name I command the radionics machine to be dead, deactivated and destroyed permanently, in Jesus' name.

### **Deactivate the spell**

In the name of the Lord Jesus Christ, I bind the strongman over the spell put upon the object inside the witness well of the radionics machine attacking Stephanie and I throw him off his throne, in Jesus' name. In Jesus' name Father I ask you to send angels to bind the strongman over the spell put upon the object inside the witness well of the radionics machine attacking Stephanie. I ask you to bind him inside of boxes, inside of boxes, 1,000,000 levels deep, with angels singing scripture to him night and day, in Jesus' name. In Jesus' name, I bind all subordinate demons that are directing and controlling the spell put upon the object inside the witness well of the radionics machine attacking Stephanie. Stephanie and I awoke on 3/27/2002 feeling very tired and drained. Kinesiology indicated that I had not been abducted. The change to the quantum matrix was still holding. It appears that “they” are very mad about it and that they will settle for psychic attack when they don’t get their wishes.

However this was a very different kind of psychic attack. Stephanie’s intuitive flash and Kinesiology indicated that it was an attack on my crown chakra energy center (at the top of the head) and that it was being accomplished by putting an “energy drain” on the crown chakra area on an old photograph of me taken in the military. Kinesiology indicated that this was supposed to stop me from changing the quantum matrix. It is very interesting that when using Kinesiology to test the type of attack, it did NOT come up as radionics, psychotronics, psionics or voodoo. It came up as “metaphysical science”.

### **Praise God for His help**

Heavenly Father, In the Name of The Lord Jesus Christ I come to you and I praise you and Thank You for the blessings you have given to Stephanie and I. Thank You for keeping us safe and sound against the attacks of the enemy. In Jesus’ name I ask you to please free me from these attacks and keep me safe from the enemy. In Jesus’ name, please remove all these things attacking me and send them back to whoever sent them, In Jesus’ Name I Pray, Amen.

### **Ask God for tactical information**

Father, In The Name Of The Lord Jesus Christ, I ask you to please give me discernment to discover where these attacks are coming from and to give me wisdom, knowledge, understanding and determination to defeat the enemy making these attacks, in Jesus’ name I pray, amen.

### **Break general or ordinary attacks on your self (do this a few times)**

In the name of The Lord Jesus Christ I break every curse, every spell, every psychic prayer and attack put upon me by any person, place, thing, witch, occult source, psychic source, Reptilian, Draconian, Grey, Insect or any other entity, In Jesus’ name. In Jesus’ name I bind every thing that came into me from those curses, spells, psychic prayers and attacks. In Jesus name I cut all such spirits loose from all your assignments, I take away every legal ground and legal hold you have on me and I close every door that was opened to you, In Jesus’ name. In Jesus’ name, I order

every thing that came into me to leave me now. Father, please send these things back to who or whatever sent them, to bring them to repentance, In Jesus' name, Amen.

### **Remove any extra soul ties or enemy surprises**

In the name of The Lord Jesus Christ I break, cut, sever, dissolve and destroy every soul tie, hook, link, connection, attachment and device of an ungodly type attached to me from any external source, in Jesus' name. ### **Remove all attachments to the energy drain**

In the name of The Lord Jesus Christ, I break, crush, dissolve, sever, smash and destroy every soul tie, hook, link, connection and attachment between myself and whoever or whatever put the energy drain in me and I command everything that came into me from those soul ties, hooks, links, connections or attachments to leave now, in Jesus' name.

### **Repair the damage**

Father, In the name of The Lord Jesus Christ, I ask you to repair all the damage done to me by this attack. I ask you to reverse all the injury done to my physical body, etheric body, astral body and all my energy bodies, in Jesus' name I pray, amen.

### **Attack and destroy the source of the problem**

In the name of The Lord Jesus Christ, Father I ask you to send millions and millions of legions of angels to directly attack the place from which this attack originated. Father, please direct the angels to destroy the hardware, software, systems, files, backup files, networks, routers and energy supplies of the attacking installation, in Jesus' name I pray, amen.

## Appendix VI: Destroying a Coven

©Michael Relfe 2002

*Disclaimer: The following information is made available to assist believers to resist the attacks of those individuals that have chosen the “left hand” path of the occult (black magic). You know who you are. **This article is not an attack upon any group or individual that does not harm others.** The response to this article by those that serve the dark side is predictable. I am not responsible for any consequences to anyone as the result of any attack directed against my family or myself. (The real book of shadows declares that you shall not cast upon a child of the living God. You should obey your own religion)*

The following procedure has proven useful when being attacked by witchcraft from multiple targets (a coven, triad or other group). When dealing with occultists I have found two main ways to counter their attacks.

- **Hard way:** Whatever was sent to me would be returned to them multiplied by a factor of 1000, 100,000 or a million. After much experience I would now only do this in an emergency if the attacks were very damaging. The problem with this type of countermeasure is that the resources of the enemy are large and that they can attack you in a “swarm” and escalate the battle beyond what you may be able to take. Another problem is that the enemy still exists and the attacks just get bigger. It would be better if the enemy was eliminated and so the source of the attack would vanish.
- **Soft Way:** I believe that this is the more effective type of countermeasure. In this procedure we use spiritual warfare techniques to “disassemble” the attacking group and eliminate each component individually. This takes more prayer, discernment and time, however the end result is more effective and longer lasting. There are five main targets in this counter attack:
  1. The strongman over the attack
  2. Whoever ordered the attack
  3. Whoever executed the attack
  4. Any machines or devices involved in the attack
  5. The curse, spell or psychic attack itself

When you are being attacked by those trapped in the occult, remember that they are **not** your enemy. These are human beings, with families, that also have wants and needs and that love, just like you do. They are trapped and ensnared in things that they never knew existed and by the

time they learned, it was too late. Many of these people were born into families where they have been abused and/or subjected to mind control since early childhood. **All** practitioners of the occult suffer from **soul fragmentation**. After participation in their first initiation, their soul is fragmented and they aren't quite the same person as they were before that procedure. After each ritual less and less of the original soul remains and more and more of the enemy takes hold upon them.

God wants these people to be freed, just like He is freeing you. **Your enemies are the entities that influence and control these occultists, whether grey alien, reptilian, draconian, demon, power, principality, world ruler or any other demon or life form.** Occultists are a dime a dozen. Satanist, Wicca witch, Druid witch, Freemason or any member of **any** secret society or secret church, it doesn't matter. The demonic hierarchy is constantly recruiting new members and burning out and sacrificing old ones. Do not worry about their numbers. Just pray for whomever God puts in your path.

### **Occultists never win**

You should be encouraged to remember that those who practice the occult arts to kill, hurt, influence or control others can never be victorious. Occult power comes from the demonic world and is limited in strength. An individual practitioner derives power and influence from the number and rank of demonic spirits that have come into them by way of casting spells, performing rituals and direct conjuring of demons. During this learning period soul fragmentation gets worse and as time goes on very little of the original human being remains. This is true whether a person is born into an occult surrounding or whether they are trained by occult books and the demons contained within them.

An individual human body can only be subject to a certain amount of this abuse before it begins to break down and various diseases appear. By the time the practitioner realizes what is happening, it is too late. As time goes on they require more and more life force energy to keep the demons at bay. They are forced to steal this energy from other beings (animal and human) by the use of ritual and sacrifice. High-level initiates frequently utilize the techniques related to tantra yoga to steal energy from children during ritual. Eventually the practitioner is unable to obtain enough energy and they are taken over completely or destroyed.

The occultist has only two choices. They can attack you and they will be defeated and probably damaged in the fight. Or they can ignore you and search for easier prey. Also remember that you are soldier and it is your job to do whatever God tells you, **nothing else**. It is not your job to save the world by yourself or to compare yourself with any other person. Learn and study and God will put you to work.

In contrast to this, the life of the believer in The Lord Jesus Christ has no such limitations or problems. Because of the shed blood of Jesus, the believer is spiritually at the same level as the creator of the universe Himself! No enemy of any kind can ever defeat the believer. Every enemy of Jesus Christ was defeated when Jesus was resurrected over 2000 years ago. These enemies of Jesus Christ are just living on borrowed time. It is clear to me that God gives his children complete victory over the enemy's attacks even so far as changing the very structure of space-time itself so that the enemy's devices will be brought to nothing. All we have to do is put the world behind us, stand forward, have faith in our Lord and determination in ourselves. Always remember that by praying for the enemy and helping turn them away from the dark side, you do massive damage to the kingdom of Satan. The results echo throughout the kingdom of darkness and do much to undermine Satan's authority and power.

## **Appendix VII(a): How to do the Wernicke's Correction**

© Stephanie Relfe 2002

*To have this correction done to you, take the description of the Wernicke's correction on page 35 and these instructions to a kinesiologist. You may be able to find information on local kinesiologists at your local health food store, or at [www.tfhka.org](http://www.tfhka.org).*

*To learn how to do this correction to others, you need a basic knowledge of kinesiology. It is highly recommended that you at least attend a Touch for Health 1 weekend. See [www.tfhka.org](http://www.tfhka.org)*

### **How to Test For Wernicke's Commands**

1. As for a normal kinesiology session, first do the pretests. Test both Anterior Deltoid and Supraspinatus muscles. Then test for dehydration, switching and blocking. Once everything is in order, proceed to step 2.
2. Find an area in life that the client is still having trouble with.
3. Work out a phrase that could create difficulty in this area, as it is said BY ANOTHER. For example, the sentence would be "You are not good enough" (Not "I am not good enough").
4. Have the client say the phrase out loud, while:
  - a) You test one Anterior Deltoid AND
  - b) The client touches the right side of the Wernicke's area of the brain, which is about 3 fingers posterior of Neurovascular 9 (just above and just behind the ear).

**If the arm goes weak when they say this sentence (while they touch the right Wernicke's area), you have the correct wording.** If the arm stays strong, you have not got the correct wording.

5. Once you have found the phrase which causes the arm to test weak, ask the client who said that to them. When they name the correct person, the arm will go weak again when you test.
6. Ask the client to turn their eyes UP and to the RIGHT, while they continue to touch the right Wernicke's area of the brain. Have them say the phrase out loud again. It should now test STRONG. **If it tests strong now, you have the correct wording.** (If it tests weak there is likely a part of the person's mind that doesn't want to face what happened to the person. Try doing Emotional Stress Release That is, put a hand on their forehead, covering both sides of their forehead, for a few minutes or more).

## HOW TO CORRECT FOR WERNICKE'S COMMANDS

**DANGER !!!** Be careful not to damage the eyes. The touching must be as GENTLE and LIGHT as possible. **TRIM ALL NAILS SHORT !!!!!**

During the breathing do not go too fast. Allow the client to breathe at their own speed so as not to cause hyperventilation).

**While doing all corrections, have the client think of the phrase.**

**A. Do the “Test for Wernicke’s Commands” as outlined above. Then:**

1. Ask the client to look **UP to the RIGHT** while they **Breathe IN** and **think of the phrase**. At the same time you GENTLY touch the left side of their LOWER eyelids and LIGHTLY push in the direction they are looking during the breathing IN cycle, then release. (This is to lightly stretch the fascia (envelope) of the eye muscles). You can use fingers, but your thumb is better to use. Allow them to Breathe OUT
2. Ask the client to look **UP to the LEFT** while they Breathe IN. At the same time you GENTLY touch the right side of their LOWER eyelids and LIGHTLY push in the direction they are looking during the breathing IN cycle, then release. Allow them to Breathe OUT.
3. Ask the client to look **UP to the RIGHT** while they **Breathe IN**. At the same time you GENTLY touch the left side of their LOWER eyelids and LIGHTLY push in the direction they are looking during the breathing IN cycle, then release. Allow them to Breathe OUT.
4. Ask the client to Look **DOWN to the LEFT** while they Breathe IN. At the same time you GENTLY touch the right side of their UPPER eyelids and LIGHTLY push in the direction they are looking during the breathing IN cycle, then release. Allow them to Breathe OUT.
5. Ask the client to look **UP to the LEFT** while they **Breathe IN**. At the same time you GENTLY touch the right side of their LOWER eyelids and LIGHTLY push in the direction they are looking during the breathing IN cycle, then release. Allow them to Breathe OUT.
6. Ask the client to look **DOWN to the RIGHT** while they **Breathe IN**. At the same time you GENTLY touch the left side of their UPPER eyelids and LIGHTLY push in the direction they are looking during the breathing IN cycle, then release. Allow them to Breathe OUT.<sup>17</sup>

- B. Re-test with the person repeating the phrase and eyes to the front (while they touch the right Wernicke's area of the brain). The muscle should now test strong – indicating that the command has been removed.<sup>18</sup>
- C. Say “thank you”. That is, acknowledge the client.
  - D. Say “What’s the next one?”. This encourages the command to come to the mind of the client, so that you can find the next phrase to work on. Repeat the test and the correction as above.<sup>x</sup>

## HELPFUL HINTS

Many clients when asked for commands that sabotage them will say phrases from an “I” point of view. This isn’t it. Whatever they say starting with “I . . .” , get them to repeat starting with “You . . .”.

When they name phrases or people which are not the ones you are looking for, don’t invalidate their answer. Merely ask “What else?” or “Who else?”

The phrase is usually associated with whatever the client is talking about. For example, if they say “I can’t think of anything” ask them what someone may have said to stop them thinking. It may be that someone said “you’re stupid”. If they start talking about an incident from their past, the phrase was probably said during that incident.

If they have a problem with remembering who said the phrase to them I also ask them who may have THOUGHT this at them. I have found that sometimes people pick up a thought from a person if they just THINK it (after all, sometimes it’s pretty clear what someone is thinking – they don’t really need to say it out loud).

The phrase can sometimes be just a one word insult, such as “fatty”.

The key is to get the EXACT wording. You may need to add words such as “very”. For example, it may not be “You’re hopeless”. It may be “You’re very hopeless” or “You’re bloody hopeless”.

If the phrase was said in a language other than English, get them to say the sentence in the language in which it was said (after translating to you what they are saying).

## **Appendix VII(b): WARNING!!!- BOOBY TRAPS!!!!**

If you have any suspicion that the person you are working on has been affected by mind control or abduction, then you need to remove what I call "Booby Traps" before you do anything. They are a special kind of wernicke's command.

First, test if there are any booby traps to be removed.

Then, test how many of each kind of booby trap there are to be removed.

Booby traps fall into two categories:

1) Commands to die if the person remembers. Examples are:

- "Have heart failure if you remember this"
- "Have kidney failure if you remember this"
- "Have a stroke if you remember this"
- "Have an accident if you remember this"
- "Have a brain hemorrhage if you remember this"
- "Kill yourself if you remember this" (Note: the word "this" is usually, but not always, in the sentence, to keep it specific)

2) Commands to kill the person who helps them to remember (that is, you). One command could be

- "Kill the person who helps you to remember this"
- "Kill the person who deprograms you"

A woman healer was murdered by one of her male clients in Melbourne Australia around 2000. I believe that it is possible and even likely that the man was a victim of mind control and the healer inadvertently removed the blocks to his memories, without first removing any booby traps.

Do not underestimate the power of booby traps. I once worked on a woman who had many health problems (eg intense stomach pain) as the result of alien abduction. I removed ten wernicke's commands to stop her from remembering. After two sessions her health problems went away. BUT, I forgot to look for any booby traps. A few weeks later she went to a doctor, thinking she had a minor stroke, plus she started 'talking funny' - it was like her brain wasn't working correctly. I then tested and found five booby traps including "Have a stroke if you remember this" and "Have an accident if you remember this". She was fine after that.

## **BLOCKS AGAINST MEMORY**

Once you have removed any booby traps, if the person was subject to mind control or abduction, I believe it is highly likely that they will have at least the following two commands to prevent memory regain:

- "Forget this"
- "Don't remember this"

And maybe also:

- "This is a dream"
- "We weren't here"
- "This didn't happen"

The word "this" will (hopefully) be included so that they don't forget EVERYTHING. Check for other forms of commands to prevent memory regain.

## **MOST IMPORTANT OF ALL ...**

Have fun with this! Remember, you will only be given the clients that you are able to help.
